SOLUTIONS for Your Skilled Workforce

LONE STAR
CORPORATE COLLEGE
Why should a business partner with Lone Star Corporate College?

• Curriculum customized for you
• Pre and Post Assessment Design
• Industry experienced instructors
• Pre-apprenticeship and apprenticeship training
• Classroom, technical, computer lab, online and hybrid options
• National and state skills standards (AWS, NIMS, OSHA, MSSC and IADC)
• Member of: International Association of Drilling Contractors, National Association for Manufacturers, Greater Houston Partnership

One Source for Customized Business Solutions & Employee Development

Lone Star Corporate College partners with national global corporations to provide customized training, open enrollment courses, professional seminars and technical management development. Corporate College staff members are focused on the energy, and advanced manufacturing sectors, but also provide training for retail, school districts, health care organizations, computer technology, non-profits, and other industries.

Lone Star Corporate College is committed to building tomorrow’s workforce by analyzing company goals and developing a training plan to advance a business’s most important asset: human capital. An investment in developing an organization’s talent sets them apart from the competition. Lone Star Corporate College is designed to provide business technical training solutions.

Working with Lone Star Corporate College offers customized training anywhere, anytime, and in any way including online. Additional benefits include: college credit for attendees (CEU or transfer credits), curriculum design experts, a source for recruiting new employees, vast instructional resources, and the confidence that the instructors and trainees are experienced and certified.

Customized Technical Training

Lone Star Corporate College offers a number of courses, which can be customized for organizations and delivered to a company worksite, at a Lone Star College campus, or online. Certification and/or college credit may be available for some courses.
Professional Development Studies

In addition to training your technical workforce we can provide professional development to complete licensures, certifications and test preparation. These courses are offered on a continuous basis throughout the year. The specialized seminars and workshops incorporate a variety of industry certifications including IADC RigPass, Intro to Oil & Gas, PMI PMP, credits to sit for CPA exams, and teacher certification. For a complete list of upcoming events, visit Lonestar.edu/CorporateCollege.

Employer Services

Lone Star Corporate College knows your company needs a well-trained highly skilled workforce. We have job developers available to help you identify and recruit the best candidates for your company. Visit Lonestar.edu/Employer-Inforamtion.

Lone Star College-Energy & Manufacturing Institute

The Lone Star College-Energy & Manufacturing Institute (EMI) is a hub for businesses with employees currently working or seeking a career in the oil and gas, or mechanized (automated) production industries – and it is expanding!

The EMI was developed by LSC and Lone Star Corporate College in response to the national, state and local talent gap in the oil and gas, and manufacturing and mechanized (automated) production industries. Customized training has been ongoing since the institute was formed in 2011.

Facilities
LSC-EMI is located at LSC-University Park in the new 70,000 square-foot building. LSC-EMI also operates satellite sections at all Lone Star College campuses. The facility houses 28 labs, five classrooms, and two simulation rooms – designed to serve a larger student population and meet the growing training needs of its industrial partners.

A Dynamic Learning Center
Education and training at LSC-EMI is offered in Foundation Courses, HSE, Machining, Manufacturing, Engineering Technology, Maintenance, Energy Technology, Quality, Computer Technology, Logistics, Welding, Language Skills, English Language (ESOL) for the Workplace, Project Management, Frontline Supervision, and more.
