STEP 1

Associate Degree Students
Who Know Their Major

• Log on to our University Transfer Site at
  http://www.lonestar.edu/university-transfer-guide.htm

• Click on the university you will be transferring to.
  (If your university is not listed here, see the next
  page for Navigating a University website).

• Find your major and print a Degree Plan!

• Now pick your classes for your first semester and
  enter the first semester on your Degree Planning
  form.

• Go to MyLoneStar to Search and Register for
  classes.

* Use the form on the back to plan your schedule

Pull a degree plan from the university web site where you will be transferring. Using your degree plan, fill in the semesters you may wish to take your classes. Remember to start your math (and foreign language if it is required) your first semester if possible and do not skip semesters. (You may have 4 or more semesters of math and foreign language! If you are “Undecided”, use the Associate of Arts handout with safe classes in yellow or shaded.

My University does not have a transfer site!  
Navigating a University Website

Trying to find a degree plan for your major on a university website can sometimes be very frustrating. Here are some tips that might help you:

- If you do not have the URL for your university, just google the university’s name!

- Look for a link that says "Transfer Students", "Academics", “Degrees”, "Departments" or "Colleges". Click on one of these.

- Next, find the specific College or Department you will be under such as Engineering, Education, English, etc. and click on this.

- Once you have found the specific college within the university, again look for the link that says "Academics", "Degrees", "Transfer Students" and sometimes "Courses".

- This should lead you to the specific degree plan for your major. Some universities, such as SAM, have their course numbers "converted" to our course numbers, (ours are called common course numbers). Most websites will not have this conversion. You can then go to the Texas Common Course number website: http://www.tccns.org/default.asp

  and click on compare institutions and see what the corresponding course numbers are at Montgomery College.

- If all else fails, see a counselor or an advisor for help pulling your degree plan. Attending college without a degree plan is like starting off on a vacation to an unknown location with a map! You may not be taking the classes you need for your major or taking classes that will not transfer into your major.
