**Discovery College Course Descriptions – Ages 9-12**

**AutoCAD Extreme Building**
Design your own star-studded home today. Because you are in charge, you can have whatever you like in your new home and no expense is too much. This class offers more than just fun, but it introduces geometry and engineering in a way that instantly shows results. You don’t want to miss the opportunity to show off your new building skills.

**City Planners**
You are the mayor for the week. Increase tourism in Houston by designing a city center that will attract people from all over the city and abroad. Take nothing for granted because this city needs your creativity and flare to take it to the next level. Our city’s success is in your hands.

**Conversational Spanish**
Do you think that learning a new language is hard? Think again. In this class, you’ll not only learn how to speak the language, but will be embraced in Spanish culture, and history. **Note: Students must bring pens/pencils, and notebooks to class.**

**Conversational Spanish Advanced**
Don’t just stop with the basics. Expand your Spanish speaking skills in this advanced level course. You’ll be amazed at what you will learn in just one additional week. **Note: Students must bring pens/pencils, and notebooks to class.**

**Country Line Dancing**
Do-se-do, kick, and turn. That’s what you’ll be doing in this fast paced, two-stepping line dance class. Have some fun and bring your boots and hats for the ultimate experience.

**CSI Crime Scene**
We are calling all detectives to duty. Come join the fun and see if you can solve crimes and mysteries, using such techniques as data collection and fingerprinting. We need you on our team, so sign up today.

**Digital Photography**
Nurture the photographer in you. Learn how to take high quality photos using techniques such as composition and creative angles. You will also use online tools to enhance your photos. **Note: Students must bring their digital camera, memory card, USB flash drive to this class.**

**Digital Photography Advanced**
There is more to learn about digital photography then just the basics. In this class, we are challenging you to shoot still life photos and use the computer to do tricks you’ve only imagined. **Note: Students must bring their digital camera, memory card, USB flash drive to this class.**

**Freedom Writers**
You are free to explore your imagination in this dynamic writing class and use your words to create powerful stories. Don’t forget about the compilation book that you’ll make at the end of class. Yes, see your own work in print. **Note: Students must bring pens/pencils, and notebooks to class.**
It’s Magic
It’s magic and trickery time. They won’t even believe it when they see what you can do when you are done with this class. Come have a blast.

It’s Time to Draw
Experience drawing in a whole new way. Let your creativity soar as you learn drawing basics as well as advance your skills. Students will develop a portfolio of their artwork to display in their own art museum at the end of class. **Note: Students must bring drawing pencils and pad to class.**

Jazzy Jewels Fanatic
It’s jewelry making time! Tap into your creative talents and make the coolest beaded jewels and accessories. Let’s put Pandora to shame.

Judge & Jury
You will learn about the fundamental concepts of the American legal system. Participation in mock trials will introduce you to the roles of the prosecutor, defense attorney, defendant, judge, and jury. **Note: Students must bring pens/pencils and notebook to class.**

Just Dance
Get started learning the latest dance moves. Come dressed and ready to have fun in this high-energy dance class. You won’t be disappointed. Everyone is looking forward to your final performance.

Just Dance Advanced
Step into action with phase two of Just Dance. You’ll learn more advanced dance techniques to rival any dance crew in the country. You should wow the audience in your final performance.

Lemonade Stand
How much money can you make? Let’s see as you venture into starting your own lemonade stand. **Note: Students must bring pens/pencils and notebook to class.**

Mad Scientists
Go absolutely mad with science. Enjoy learning the latest and greatest science discoveries of all time. **Note: Students must bring pens/pencils and notebook to class.**

Math Wizards
I bet you didn’t think that Math was this fun until now. In this class, you’ll learn tips and strategies to improve your basic Math to pre-Algebra skills. **Note: Students must bring pens/pencils and notebook to class.**

Mental Math
No more paper and pens for you. Figure out Math calculations in your head without thinking twice. You’ll be amazed at how these mind tricks will expand your memory and wow your friends. **Note: Students must bring pens/pencils and notebook to class.**

Robocamp
It’s robotics time kids. We are doing some new and exciting things with robots that we’ve never done before. This class always fills up fast, so don’t be late to register.
Spelling Bee
Become the world’s Spelling Bee champion in just one week. You’ll be amazed at how many words you’ll be able to memorize. A Spelling Bee is the finale for this class. Will you be the winner? Note: Students must bring pens/pencils and notebook to class.

Spelling Bee Advanced
You’ve earned your trophy for being the Spelling Bee champion, so let’s go one step further and learn even bigger and better words. A Spelling Bee is the finale for this class. Will you be the winner? Note: Students must bring pens/pencils and notebook to class.

Survivor
Come into the wild and embrace all that nature has to offer you. You can survive anything and this class will show you how. You’ll learn strategies to cope with any natural disaster and preserve the earth.

Top Chef
Become a Top Chef. Learn culinary techniques that will separate you from the rest. Note: Children with food allergies should notify the College prior to class start. Students may also want to bring an apron to protect their clothing.

Web Design
Our web design class offers an introduction to creating and designing web sites. Whether you are a novice or an experienced designer, we’ll take your skills to another level. Note: Students must USB flash drive to this class.

Web Design Advanced
It’s time to step your web design game up. Learn how to design stylish web sites that incorporate flash and video. Don’t miss this chance at becoming an expert web designer. Note: Students must USB flash drive to this class.
Discovery College Course Descriptions – Ages 11-14

Animation Web
It’s animation time! Get ready to create and explore a variety of mediums as you learn the core principles of animation including hand-drawn, stop-motion, 2D and 3D animation. **Note: Students must USB flash drive to this class.**

Animation Web Intermediate
It’s animation time again! You’ve already learned the basics, so expand your knowledge and strive to be an animation wiz. **Note: Students must USB flash drive to this class.**

Animation Web Advanced
You’ve reached the final phase of the Animation Web series, so now you are at the expert level. We expect your creations to be out of this world and you’ll do just that by the end of this class. Come prepared and be ready to create fascinating animation. **Note: Students must USB flash drive to this class.**

Are you smarter than a 5th grader?
Take the challenge and see if you are really smarter than a fifth grader. You won’t believe the things that you will learn in this class. We are ready, are you? There is a lot to recall, but we know you can do it.

AutoCAD Extreme Building
You are the builder and engineer that will make this project a success. Build your dream home or a new home for your parents, it’s up to you. This course will also prepare you for the next level, Solidworks. You will have an awesome time creating a masterpiece.

Country Line Dancing
Do-se-do, kick, and turn. That’s what you’ll be doing in this fast paced two-stepping line dance class. Have some fun and bring your boots and hats for the ultimate experience.

Days in the Life of a College Student
Are you ready for college? In this class, you’ll get to experience, first hand, what it takes to enter college and be successful. **Note: Students must bring pens/pencils and notebook to class.**

Debate Team
It’s debate time again. Learn the art of debating while also honing your verbal and non-verbal skills. Last year, this class was an all-time favorite and we expect it to be the same this year. Make sure to join this fun-filled and exciting debate class and see if you can win the battle. **Note: Students must bring pens/pencils and notebook to class.**

Digital Photography
Nurture the photographer in you. Learn how to take high quality photos using techniques such as composition and creative angles. You will also use online tools to enhance your photos. **Note: Students must bring their digital camera, memory card, USB flash drive to this class.**

Digital Photography Advanced
There is more to learn about digital photography then just the basics. In this class, we are challenging you to
shoot still life photos and use the computer to do tricks you’ve only imagined. **Note: Students must bring their digital camera, memory card, USB flash drive to this class.**

**Extreme Math**
Take it to the extreme with this integrated Math course. Enjoy word problems, algebra and get introduced to the world of geometry, trigonometry, and analysis. You’ll have a blast and learn a lot as well. We look forward to having you. **Note: Students must bring pens/pencils, and notebooks to class.**

**Freedom Writers**
You are free to explore your imagination in this dynamic writing class and use your words to create powerful stories. Don’t forget about the compilation book that you’ll make at the end of class. Yes, see your own work in print. **Note: Students must bring pens/pencils, and notebooks to class.**

**Glamour Girls**
Become the next top model or beauty pageant queen. Gain star-quality and celebrity style to set yourself a part from the rest.

**GLEE**
Just like the popular show, students are engaged in hands-on activities to demonstrate their singing and acting abilities. You must be ready for the grand finale. Everyone will be watching and applauding you on.

**Iron Chef**
Let’s get ready to battle in the kitchen. You’ll learn basic to advanced techniques in cooking that will make your family jump for joy when tasting your creations. This isn’t just your average cooking class, so come prepared and ready to cook. **Note: Children with food allergies should notify the College prior to class start. Students may also want to bring an apron to protect their clothing.**

**Math Genius**
This class makes Math fun. You’ll enjoy expanding on your current knowledge and seeing how Math is the building block of most of the world’s creations. **Note: Students must bring pens/pencils and notebook to class.**

**Mental Math**
No more paper and pens for you. Figure out Math calculations in your head without thinking twice. You’ll be amazed at how these mind tricks will expand your memory and wow your friends. **Note: Students must bring pens/pencils and notebook to class.**

**Robotics**
It’s robotics time kids. We are doing some new and exciting things with robots that we’ve never done before. This class always fills up fast, so don’t be late to register.

**Solidworks**
You’ve stepped up on your building skills, so now it’s time to enjoy the awesome works of 3D CAD Design. Solidworks is the industry’s advance standard in AutoCAD, so get a jumpstart on your future.
The Voice
You were born to sing and we can prove it. Enjoy developing your vocal skills and knowledge of music in just one week. Practice, practice, practice because you’ll need to be at your best for your final performance.

Think Tank
Putting your thinking cap on is the key to being successful in this class. Enjoy learning that allows you to analyze and synthesize information in a fun way. **Note: Students must bring pens/pencils and notebook to class.**

Trash to Treasure
Someone else’s trash is another person’s treasure. Come and enjoy refurbishing old items into new and fun ones.

Web Design
Creating web sites today is one of the coolest jobs to have, so why don’t you join in on the fun. Whether you are a beginner or a novice, this class will introduce and expand on the basics. It will also prepare you for the Advanced Web Design course. **Note: Students must USB flash drive to this class.**

Web Design Advanced
You’ve done great in the previous Web Design class, so now it’s time for you to step up to the challenge and take Web Design Advanced. **Note: Students must USB flash drive to this class.**

We the People
We live in a democratic society, but you must understand the system in order to fully live in it happily. This isn’t your ordinary Government class. It’s more than informative, but unbelievably fun. **Note: Students must bring pens/pencils and notebook to class.**

Young Entrepreneurs
Do you want to be your own boss? Learn how to make a business idea come to life. Take your idea from nothing and end with a business plan that will get you started in business today. **Note: Students must bring pens/pencils and notebook to class.**
