Week 4: June 27 – 30

Morning

Mixed Media Drawing (8-11)

A hands-on introduction to oil pastels, chalk pastels, charcoal drawing, and more. No previous training in art required. Explore different mediums of art, as well as experiment in this hands-on introduction to art experience No previous training in art required. Enjoy discovering your artistic talents. 1.6 CEUs \$89.00

7902 YTHSC 3900007 2001 MTWTh 6/27-6/30 8:30AM-12:30PM

Robotics: Machines, Mechanisms and Robots (8-11)

This interactive camp for 8-11 year olds is a great introduction to the world of engineering and robotics! In student pairs, the exploration of simple machines helps them to examine, demonstrate, and understand the concept of pulleys, gears, and axles. Then they will use software that introduces them to the computer programming that allows their robots to move and function properly. This cause and effect camp allows students to reflect on their findings and tap into problem solving and creativity skills in a fun and exciting way. 1.6 CEUs \$89.00

7938 YTHSC 3940095 2002 MTWTh 6/27-6/30 8:30AM-12:30PM

Rocks, Minerals and Fossils – Oh My! (8-11)

Attention budding geologists and rock hounds! Join this geology camp and explore the world beneath your feet! Learn how to identify common rocks and minerals, create fossil images, eat your way through a fossil dig and volcano, and explore the fascinating world of dinosaurs. This is a hands-on, explosive, digging adventure! 1.6 CEUs \$89.00

7520 YTHSC 3200060 2002 MTWTh 6/27--6/30 8:30AM-12:30PM

Sports and Skills Camp (8-14)

The Lone Star College Kingwood Sports Skills Camp will be a fun and innovative camp for children of ages 8-14. The camp will focus on playing a variety of sports and games, including but not limited to tennis, basketball, soccer, volleyball, dodge ball and motor skill events. It has been proven that different skills developed from a variety of sports enhances many aspects of young athletes' abilities. Students will have the opportunity to play these sports as well as having fun learning something new. Our Sports Skills Camp develops teamwork and sportsmanship through fun activities. We recognize that even the slightest bit of progress means confidence and empowerment. All of our participants regardless of skill level have the chance to grow as an athlete and as a person, while experiencing the positive impact that sports can forever have on their lives. 1.6 CEUs \$89.00

7513 YTHSC 3200058 2004 MTWTh 6/27-6/30 8:30AM-12:30PM

Gardening And Nature (12-14)

Students will learn about the local environment and find out what grows in this climate zone and why. Finished projects include a small planting to take home and nurture. Discover why worms and bugs are an import part of the garden. Find out how to attract butterflies to your back yard. Learn about the various wild flowers in the area and how to press them into keepsakes and gifts. Class will be designed a little different for age appropriate activities and knowledge. Supply fee of \$10 due first day of class. 1.6 CEUs \$89.00

8262 YTHSC 3940107 2001 MTWTh 6/27-6/30 8:30AM-12:30PM

Sign Language II (12-17)

This camp is a continuation of Sign Language I where students embrace a fun and exciting way to communicate while exploring a different type of culture through visual signs with no speech. Lessons are structured around sign language needed for common-life situations, and examples are presented in the form of dialogues coupled with simple grammar and vocabulary instruction. 1.6 CEUs \$89.00

7901 YTHSC 3800836 2002 MTWTh 6/27-6/30 8:30AM-12:30PM

Events Done Right (15-17)

Events Done Right course which would be geared towards all age groups. In this course students will have a close inspection of the details that go into planning and throwing wonderful parties and events. Students will have an opportunity to develop and plan an event- they will learn how to party for a reason and select a program/cause to party for, create a budget, find sponsorship, make a memorable program, activities during the party, and marketing. Students will be involved in every detail that goes into an event and will throw their own mock event. 1.6 CEUs \$89.00

8183 YTHSC 3900165 2002 MTWTh 6/27-6/30 8:30AM-12:30PM

Preparing for Biology (15-17)

This course is ideal for the high school student that is preparing to take Biology, AP Biology or College Biology. Biology has many twists and turns that can lead to confusion. Participants will learn unique ways to remember common concepts and applications. Time will be spent reviewing body systems and the basic chemistry of life. At the end of the week, participants will have a journal full of useful information to carry with them. 1.6 CEUs \$89.00

8171 YTHSC 3940105 2004 MTWTh 6/27-6/30 8:30AM-12:30PM

Week 4: June 27 – 30

Afternoon

Guess Who's Talking?.....Puppets (8-11)

This camp will involve making puppets using socks, felt, pipe cleaners and other odds and ends. Students will divide into small groups and each one will make a puppet and write a play around the puppet designs. There will be time to create, write, practice and then perform (as the puppet) the last day of camp. This camp is for creative thinkers who want to design, write scripts, show action with the puppets, cooperate with others and laugh. Guess what couldn't be more fun? All supplies will be available in the class. 1.6 CEUs \$89.00

8132 YTHSC 3980093 2002 MTWTh 6/27-6/30 1PM-5PM

Nano-Engineering: Small Machines, Lots of fun! (8-11)

Students will be given a brief overview of the processes used today to create the world's smallest parts - found in all computers, cell phones, iPods, iPhones, iPads, and pretty much everything "digital" that occupies our daily lives. Hands-on demonstrations designed to provide a macro-sized reference to the processes performed at the nano scale, allowing the students to gain a clear idea of the concepts behind nano-engineering and nanofabrication. 1.6 CEUs \$89.00

8172 YTHSC 3940101 2002 MTWTh 6/27-6/30 1PM-5PM

Super Cosmic Exploration (8-11)

Come aboard and join our crew as we explore our solar system and experience all the field of Astronomy has to offer! In this camp, students will learn about the constellations, star brightness, the formation and motion of our galaxy and much more. Campers will form astronaut teams to do a Mars Rover Relay, participate in a Planetary Mars Soil Lab, demonstrate how a black hole works using marbles and weights, create an asteroid image, map the constellations by designing a star finder, and discover which stars will turn supernova! This will be a journey into space Discovery College campers won't soon forget! 1.6 CEUs \$89.00

7925 YTHSC 3930040 2002 MTWTh 6/27-6/30 1PM-5PM

Adventures In Science And Biology (12-14)

This class answers everyday questions about science and medicine. Discover how water is filtered and used in the body. Learn more about the food chain for plants, humans and animals. Students will engage in activities that broaden their understanding of everyday life that surrounds them creating an adventure in their close proximity through scientific investigations. An additional in class supply for \$5. 1.6 CEUs \$89.00

8264 YTHSC 3940105 2008 MTWTh 6/27-6/30 1PM -5PM

Robotics Laboratory (12-14)

This interactive camp for 12-14 year olds will embark on an adventurous challenge of developing a simple autonomous robot to assist with a real-world issue! In student pairs, students will model real-life mechanisms and use creativity, logic, and problem solving skills to meet challenges while learning necessary science, technology, engineering and math concepts. Students will use the computer to teach their simple robots to move and react in order to solve challenges. Through hands-on-activities, engaging discussions, students exercise their problem solving skills in a fun and exciting way! 1.6 CEUs \$89.00

7942 YTHSC 3940227 2001 MTWTh 6/27-6/30 1PM-5PM

Interior Design Elements (15-17)

How would you like to create a room design that is just right for you? That's what you will do in this exciting, hands-on class where you will be introduced to the basic principles of interior design. You will apply what is learned during class discussion to your own project plan and develop a room design that is just right for you! 1.6 CEUs \$89.00

8173 YTHSC 3980027 2002 MTWTh 6/27-6/30 1PM-5PM

Week 5: July 11– 14

Morning

Bridge: The Mental Sport (8-11)

The game of Bridge offers young students the opportunities to exercise their mind while at the same time enjoy the social interaction and competitive challenge of playing cards. Contract Bridge, the card game, is an officially recognized Olympic Sport that has no age limit and is played worldwide. The student will learn to depend on a partner and a team for success. Age appropriate critical thinking skills; such as, problem solving, effective communications, strategic planning and following directions are ventricle parts of the learning process. Math skills and vocabulary enhancement are added benefits, not to mention that -- THE GAME IS FUN! 1.6 CEUs \$89.00
7919 YTHSC 3900415 2002 MTWTh 7/11-7/14 8:30AM-12:30PM

Cupcake Creations (8-11)

Cupcakes are hot and trendy; not to mention that kids love to help in the kitchen. Now, kids can learn how to decorate like the pros with Wilton's new cake decorating program designed especially for them -- Wilton Icing Fun Workshop. This camp is designed to introduce children to cake decorating. They will use decorating tools, icing, and pre-made cookies or cupcakes to create their own decorated treats. There is a \$5.00 supply fee for this class. 1.6 CEUs \$89.00
7929 YTHSC 3930084 2001 MTWTh 7/11-7/14 8:30AM-12:30PM

Fantastic Physics (8-11)

Comprehensive coverage of mechanical and electrical concepts aligned with examples and demonstrations chosen for their stimulating nature and ease of individual participation. Students should leave the class with a working knowledge of the concepts of rotational motion, projectile motion, air drag/flight, and simple harmonic motion. 1.6 CEUs \$89.00
8174 YTHSC 3940109 2002 MTWTh 7/11-7/14 8:30AM-12:30PM

Sports and Skills Camp (8-14)

The Lone Star College Kingwood Sports Skills Camp will be a fun and innovative camp for children of ages 8-14. The camp will focus on playing a variety of sports and games, including but not limited to tennis, basketball, soccer, volleyball, dodge ball and motor skill events. It has been proven that different skills developed form a variety of sports enhances many aspects of young athletes' abilities. Students will have the opportunity to play these sports as well as having fun learning something new. Our Sports Skills Camp develops teamwork and sportsmanship through fun activities. We recognize that even the slightest bit of progress means confidence and empowerment. All of our participants regardless of skill level have the chance to grow as an athlete and as a person, while experiencing the positive impact that sports can forever have on their lives. 1.6 CEUs \$89.00
7515 YTHSC 3200058 2005 MTWTh 7/11-7/14 8:30AM-12:30PM

Got Game? It's Time to Create Your Own Computer Game (12-14)

Do you have an idea for a computer game? Then unleash your creativity and learn how to design your own computer game. Develop your own strategies, fantasy characters, build environments and arrange game play. Put all that together with easy to use game design software and in no time you will be challenging your friends to rounds of your very own computer game. No programming skills necessary. 1.6 CEUs \$89.00
7505 YTHSC 3200027 2003 MTWTh 7/11-7/14 8:30AM-12:30PM

The Apprentice (12-17)

How intelligently can you deal with the real world business? Everyone is given a chance to prove themselves with how good they are at developing strategies. Students are split into two groups and assigned a daily task. Each task students win money (play) or lose money depending on how their team performs. As the time runs, the difficulty level of the tasks gets higher and higher. All team members need to flaunt their skills in different areas of business such as sales, finance, marketing, and all other major terrains. Watch Celebrity Apprentice for ideas. 1.6 CEUs \$89.00
8185 YTHSC 3930054 2002 MTWTh 7/11-7/14 8:30AM-12:30PM

Mixed Media Drawing (12-17)

A hands-on introduction to oil pastels, chalk pastels, charcoal drawing, and more. No previous training in art required. Explore different mediums of art, as well as experiment in this hands-on introduction to art experience No previous training in art required. Enjoy discovering your artistic talents. 1.6 CEUs \$89.00
7903 YTHSC 3900007 2002 MTWTh 7/11-7/14 8:30AM-12:30PM

Week 5: July 11– 14

Afternoon

Cupcake Creations (8-11)

Cupcakes are hot and trendy; not to mention that kids love to help in the kitchen. Now, kids can learn how to decorate like the pros with Wilton's new cake decorating program designed especially for them -- Wilton Icing Fun Workshop. This camp is designed to introduce children to cake decorating. They will use decorating tools, icing, and pre-made cookies or cupcakes to create their own decorated treats. There is a \$5.00 supply fee for this class. 1.6 CEUs \$89.00

7930 YTHSC 3930084 2002 MTWTh 7/11-7/14 1PM-5PM

Earth, Wind And Fire (8-11)

Students will explore the science of geology, climate, weather and astronomy related events that affect our lives and our planet. Learn to track hurricanes, weather patterns, volcano eruptions and earthquakes. Supply fee of \$5 due first day of class. 1.6 CEUs \$89.00

8261 YTHSC 3940105 2007 MTWTh 7/11-7/14 1PM -5PM

Fun With Reading, Writing and History ! (8-11)

Students will use literature circles (book clubs) to encourage and improve reading skills. Students will participate in fun reading centers/games with their peers. Students will participate in writers workshop activities. Students will use Reader's Theatre to explore different historical people and events. Students will leave this class with an understanding of how reading and writing are important in their everyday lives. They will have so much fun, they won't even realize they are learning!! 1.6 CEUs 89.00

8140 YTHSC 3900443 2002 MTWTh 7/11-7/14 1PM-5PM

World Explorer (Ages 8-11)

Explore the world in a whole new way. Students will use their imagination to create travel brochures on the most remote and unique places around the world. Students will discover places and find their geographic features and attractions to develop a travel brochure.

This class will promote geography skills. 1.6 CEUs \$89.00

8378 YTHSC 3980021 2004 MTWTh 7/11-7/14 1PM-5PM

Jump off the Page (12-14)

This camp for 12 – 14 year olds will center on a fun exploration of writing in a stress free manner. The objectives will be to use fun exercises to help in the writing process. Exercises will include madlibs, quick write, word searches, finish the prompt, drawing pictures for writing and others. Students will complete an original short story by the end of the camp session. This camp taught by Karen Vavra, the author of two published books and whose submissions to Rice University Writer's Gallery won for 2009 and 2010, will offer techniques in a fun filled manner. Since writing is a great part of any student's life, working toward success in a calm and interesting way, will be very beneficial to everyone. 1.6 CEUs \$89.00

7914 YTHSC 3900144 2001 MTWTh 7/11-7/14 1PM-5PM

Perspective Drawing (12-14)

The use of perspective gives your drawings depth, dimension and a sense of realism. From the simple to the complex, we will practice all aspects of perspective in the art studio environment. Students will use different art media to create a variety of projects while learning to draw perspective like the masters. 1.6 CEUs \$89.00

7888 YTHSC 3200064 2001 MTWTh 7/11-7/14 1PM-5PM

Genea-Kid: Who Do You Think You Are? (12-17)

Who do think you are? Are you interested in your family history? If so, this is the class for you. You will learn how to start with information you already know to create an ancestral tree. You will learn about resources available to you to continue adding to your tree. Before you know it, your tree will be bigger than you ever imagined. Please bring to class information about your family – siblings, mother, father, grandmothers, grandfathers, aunts and uncles. Useful information includes birthdates, birthplaces, marriage dates, death dates, etc. 1.6 CEUs \$89.00

7891 YTHSC 3800814 2001 MTWTh 7/11-7/14 1PM-5PM

Week 6: July 18 – 21

Morning

Mixed Media Drawing (8-11)

A hands-on introduction to oil pastels, chalk pastels, charcoal drawing, and more. No previous training in art required. Explore different mediums of art, as well as experiment in this hands-on introduction to art experience No previous training in art required. Enjoy discovering your artistic talents. 1.6 CEUs \$89.00

1.6 CEUs \$89.00

7904 YTHSC 3900007 2003 MTWTh 7/18-7/21 8:30AM-12:30PM

Paper Sculpture (8-11)

In this exciting class we will explore figurative and abstract design using paper as our primary medium...explore figurative and abstract three dimensional design. 1.6 CEUs \$89.00

7910 YTHSC 3900114 2001 MTWTh 7/18-7/21 8:30AM-12:30PM

Fantastic Physics (8-11)

Comprehensive coverage of mechanical and electrical concepts aligned with examples and demonstrations chosen for their stimulating nature and ease of individual participation. Students should leave the class with a working knowledge of the concepts of rotational motion, projectile motion, air drag/flight, and simple harmonic motion. 1.6 CEUs \$89.00

8176 YTHSC 3940109 2003 MTWTh 7/18-7/21 8:30AM-12:30PM

Sports and Skills Camp (8-14)

The Lone Star College Kingwood Sports Skills Camp will be a fun and innovative camp for children of ages 8-14. The camp will focus on playing a variety of sports and games, including but not limited to tennis, basketball, soccer, volleyball, dodge ball and motor skill events. It has been proven that different skills developed from a variety of sports enhances many aspects of young athletes' abilities. Week 6: July 18 – 21

Two Week Session

Nothing but Bull Youth Program (8-11)

Written and Instructed by: Gabriella Roberts: Sensei Gabriella Roberts is a 4th degree Black-belt in Aiki-jujitsu. She has taught all ages for over 16 years. She has dealt with children in bullying situations and teaches your children how to walk in Confidence. Teaches them how to respect themselves and, as well as, others. Empowerment to take control of your situation and addressing ways on their level on how to deal with the pressure. Safe and effective technique taught in a controlled environment. Bullying from all aspects addressed. Young(peer pressure) to Teenage relationships(saying NO). 1.6 CEUs \$89.00

7935 YTHSC 3940034 2002 MTWTh 7/18-7/28 10:30AM-12:30PM

PSAT/SAT Reading/Writing Intensive Prep (12-17)

This 2-week comprehensive preparation course prepares students to take the PSAT/SAT test and focus on the most important information they need to know to get their best score. Students learn critical thinking skills and test strategies for the verbal portion of the test. Verbal instruction will include methods to increase reading comprehension, understanding author's point of view, sentence completion, vocabulary emphasis, and student-written essay. 3.2 CEUs \$167.00

7917 DEVSC 3900402 2002 MTWTh 7/18-7/28 1PM-5PM

Week 7: July 25 – 28

Morning

Could Writing Be Fun? TOTALLY! (8-11)

8-11 year olds UNITE in a fun writing camp where they'll use exercises to help improve writing. They'll use madlibs, word searches, drawing pictures, crazy fairy tales, teacher prompts and games with words (prizes will be involved.) This camp is organized and goals will be met but the fun of getting there is what it's all about!!! Students will express themselves through good techniques and truly find out that writing is FUN... TOTALLY!!! 1.6 CEUs \$89.00

7921 YTHSC 3900430 2001 MTWTh 7/25-7/28 8:30AM-12:30PM

Robotics: Machines, Mechanisms and Robots (8-11)

This interactive camp for 8-11 year olds is a great introduction to the world of engineering and robotics! In student pairs, the exploration of simple machines helps them to examine, demonstrate, and understand the concept of pulleys, gears, and axles. Then they will use software that introduces them to the computer programming that allows their robots to move and function properly. This cause and effect camp allows students to reflect on their findings and tap into problem solving and creativity skills in a fun and exciting way. 1.6 CEUs \$89.00

7939 YTHSC 3940095 2003 MTWTh 7/25-7/28 8:30AM-12:30PM

Fun Math: Number Magic (8-11)

The world of math is very cool. But math can be tricky for some kids to master. Join this camp of junior mathematicians and learn some awesome math tricks and number magic that will not only amaze you but help you gain a better understanding and love of math! 1.6 CEUs \$89.00

7912 YTHSC 3900128 2001 MTWTh 7/25-7/28 8:30AM-12:30PM

Sports and Skills Camp (8-14)

The Lone Star College Kingwood Sports Skills Camp will be a fun and innovative camp for children of ages 8-14. The camp will focus on playing a variety of sports and games, including but not limited to tennis, basketball, soccer, volleyball, dodge ball and motor skill events. It has been proven that different skills developed form a variety of sports enhances many aspects of young athletes' abilities. Students will have the opportunity to play these sports as well as having fun learning something new. Our Sports Skills Camp develops teamwork and sportsmanship through fun activities. We recognize that even the slightest bit of progress means confidence and empowerment. All of our participants regardless of skill level have the chance to grow as an athlete and as a person, while experiencing the positive impact that sports can forever have on their lives. 1.6 CEUs \$89.00

7517 YTHSC 3200058 2007 MTWTh 7/25-7/28 8:30AM-12:30PM

Movie Trailer Director (Ages 8-11)

Do you have an idea for a movie trailer? Use your imagination and ideas to create a storyboard, film the scenes, and develop it into a movie trailer. Students will read literature circle books to make a movie trailer to promote reading and technology skills. 1.6 CEUs \$89.00

8379 YTHSC 3900154 2001 MTWTh 7/25-7/28 8:30AM-12:30PM

Cupcake Creations (12-14)

Cupcakes are hot and trendy; not to mention that kids love to help in the kitchen. Now, kids can learn how to decorate like the pros with Wilton's new cake decorating program designed especially for them -- Wilton Icing Fun Workshop. This camp is designed to introduce children to cake decorating. They will use decorating tools, icing, and pre-made cookies or cupcakes to create their own decorated treats. There is a \$5.00 supply fee for this class. 1.6 CEUs \$89.00

7931 YTHSC 3930084 2003 MTWTh 7/25-7/28 8:30AM-12:30PM

Relating With Money: Financial Literacy for Youth (12-14)

Today, youth ages 12-14 are starting to earn money with summer jobs. So, how should they handle and manage that money? More importantly, how can they make that money work for them? Students will learn about the basics of personal finance including, but not limited to: how to create their own financial plan, how to create their own budget and balance a checkbook, how the banking and investment systems work, and understanding the potential pitfalls of debt and how to effectively manage it. Students will also examine how the choices they make in life can, and will, affect their financial plan. This course will get children on the right path to financial literacy as they near high school. 1.6 CEUs \$89.00

8089 YTHSC 3900368 2002 MTWTh 7/25-7/28 8:30AM-12:30PM

Explorations In Personal And Academic Enrichment

Job Skills/ College Skills/ College Preparedness (15-17)

Students will explore skills and work habits needed to succeed in the workplace and in college like time management, study skills, creation of resumes, cover letters, academic planning and financial planning for college. With an ever increasing need for advanced degrees this class is designed to help equip the student with knowledge about how to plan for their future educational and career goals. 1.6 CEUs \$89.00

Got Game? It's Time to Create Your Own Computer Game (8-11)

Do you have an idea for a computer game? Then unleash your creativity and learn how to design your own computer game. Develop your own strategies, fantasy characters, build environments and arrange game play. Put all that together with easy to use game design software and in no time you will be challenging your friends to rounds of your very own computer game. No programming skills necessary. 1.6 CEUs \$89.00

8134 YTHSC 3200027 2004 MTWTh 7/25-7/28 1PM-5PM

Nano-Engineering: Small Machines, Lots of fun! (8-11)

Students will be given a brief overview of the processes used today to create the world's smallest parts - found in all computers, cell phones, iPods, iPhones, iPads, and pretty much everything "digital" that occupies our daily lives. Hands-on demonstrations designed to provide a macro-sized reference to the processes performed at the nano scale, allowing the students to gain a clear idea of the concepts behind nano-engineering and nanofabrication. 1.6 CEUs \$89.00

8178 YTHSC 3940101 2003 MTWTh 7/25-7/28 1PM-5PM

Babysitter's Training and Business Workshop (12-15)

American Red Cross Babysitter's Training gives 12-15 year olds the skills and confidence they need to become great babysitters. This camp-workshop covers training in care giving, decision making, safety and first aid skills, and preventing and responding to emergencies. Participants receive The Babysitter's Training Handbook, which provides course review and 30 easy-to-follow first aid action plans for handling emergencies. The business workshop helps participants prepare their resumes and business cards, and interview tips for landing their first babysitting assignment and launching their business. There is a \$20.00 supply fee for this class. (Paid the 1st day of class) 1.6 CEUs \$89.00

7906 YTHSC 3900014 2002 MTWTh 7/25-7/28 1PM-5PM

The Apprentice (12-17)

How intelligently can you deal with the real world business? Everyone is given a chance to prove themselves with how good they are at developing strategies. Students are split into two groups and assigned a daily task. Each task students win money (play) or lose money depending on how their team performs. As the time runs, the difficulty level of the tasks gets higher and higher. All team members need to flaunt their skills in different areas of business such as sales, finance, marketing, and all other major terrains. Watch Celebrity Apprentice for ideas. 1.6 CEUs \$89.00

8187 YTHSC 3930054 2004 MTWTh 7/25-7/28 1PM-5PM

Interior Design Elements (15-17)

How would you like to create a room design that is just right for you? That's what you will do in this exciting, hands-on class where you will be introduced to the basic principles of interior design. You will apply what is learned during class discussion to your own project plan and develop a room design that is just right for you! 1.6 CEUs \$89.00

8180 YTHSC 3980027 2003 MTWTh 7/25-7/28 1PM-5PM

Week 8: August 1 – 4

Morning

Robotics: Machines, Mechanisms and Robots (8-11)

This interactive camp for 8-11 year olds is a great introduction to the world of engineering and robotics! In student pairs, the exploration of simple machines helps them to examine, demonstrate, and understand the concept of pulleys, gears, and axles. Then they will use software that introduces them to the computer programming that allows their robots to move and function properly. This cause and effect camp allows students to reflect on their findings and tap into problem solving and creativity skills in a fun and exciting way. 1.6 CEUs \$89.00

7940 YTHSC 3940095 2004 MTWTh 8/01-8/04 8:30AM-12:30PM

Planet Earth (8-11)

In one corner of the Solar System, life abounds. From the frozen lakes in Antarctica to the boiling ocean-floor springs of the Pacific, planet Earth is teeming with life. Junior scientists in this camp will have an opportunity to explore the essential elements of life and develop an understanding of basic life science principles through hands-on methods such as building structural and functional animal models, exploring outdoor habitats, and putting together food webs. 1.6 CEUs \$89.00

7946 YTHSC 390021 2003 MTWTh 8/01-8/04 8:30AM-12:30PM

Fun Math (8-11)

The world of math is very cool. But math can be tricky for some kids to master. Join this camp of junior mathematicians and learn some awesome math tricks and number magic that will not only amaze you but help you gain a better understanding and love of math! 1.6 CEUs \$89.00

7913 YTHSC 3900128 2002 MTWTh 8/01-8/04 8:30AM-12:30PM

Sports and Skills Camp (8-14)

The Lone Star College Kingwood Sports Skills Camp will be a fun and innovative camp for children of ages 8-14. The camp will focus on playing a variety of sports and games, including but not limited to tennis, basketball, soccer, volleyball, dodge ball and motor skill events. It has been proven that different skills developed from a variety of sports enhances many aspects of young athletes' abilities. Students will have the opportunity to play these sports as well as having fun learning something new. Our Sports Skills Camp develops teamwork and sportsmanship through fun activities. We recognize that even the slightest bit of progress means confidence and empowerment. All of our participants regardless of skill level have the chance to grow as an athlete and as a person, while experiencing the positive impact that sports can forever have on their lives. 1.6 CEUs \$89.00

7518 YTHSC 3200058 2008 MTWTh 8/01-8/04 8:30AM-12:30PM

Wire Sculpture (12-14)

If you love working with your hands, this activity is designed to MOTIVATE students to exercise their eye hand coordination in order to develop their skills using tools in order to produce WIRE works of art that can be exhibited in a gallery or public setting. Students will need protective gloves, goggles, needle nose pliers and an apron for this activity. 1.6 CEUs \$89.00

7936 YTHSC 3940059 2001 MTWTh 8/01-8/04 8:30AM-12:30PM

So You Think You Can Dance (12-17)

Whether a beginning or experienced dancer, all students will have a blast learning and performing choreography in this dance class. Students will learn dance routines and choreograph their own routines. The final dance routine will be posted on uTube. 1.6 CEUs \$89.00

8181 YTHSC 3900330 2002 MTWTh 8/01-8/04 8:30AM-12:30PM

Bridge: The Mental Sport (12-17)

The game of Bridge offers young students the opportunities to exercise their mind while at the same time enjoy the social interaction and competitive challenge of playing cards. Contract Bridge, the card game, is an officially recognized Olympic Sport that has no age limit and is played worldwide. The student will learn to depend on a partner and a team for success. Age appropriate critical thinking skills; such as, problem solving, effective communications, strategic planning and following directions are ventricle parts of the learning process. Math skills and vocabulary enhancement are added benefits, not to mention that -- THE GAME IS FUN! 1.6 CEUs \$89.00

7920 YTHSC 3900415 2003 MTWTh 8/01-8/04 8:30AM-12:30PM

Week 8: August 1 – 4

Afternoon

Could Writing Be Fun? TOTALLY! (8-11)

8-11 year olds UNITE in a fun writing camp where they'll use exercises to help improve writing. They'll use madlibs, word searches, drawing pictures, crazy fairy tales, teacher prompts and games with words (prizes will be involved.)
