Lone Star Corporate College offers a variety of programs and services tailored to business. The top five reasons clients choose Lone Star Corporate College are for customized training, open enrollment courses, state-of-the-art conference centers, job placement of qualified candidates and Texas Workforce Commission skills development grants. **Call us today to see what we can do for you.**

281.296.7827 (STAR)

Corporate College offers a broad range of solutions for business and industry in the following areas:

**Frontline Supervision**
- Role of the Supervisor
- Managing Different Personalities
- Motivating and Engaging Employees
- Teamwork and Collaboration
- Communication Effectiveness
- Managing Performance
- Coaching for Commitment
- Managing Conflict
- Managing Change
- Time Management

**Oil & Gas Training**
- Basic Principles of Oil and Gas: upstream, midstream, and downstream activities.
- Drilling: Upstream training focused on land and safety.
- Rig Pass/Well Cap/Safeland
- Floorhand/Motorhand/Derrickman

**Welding Technology**
- Assessment
- Training (Core, Plate, Pipe & Structural)
- Non-Destructive Testing (NDT)/Inspection

**Machining Technology**
- Training leading to National Institute of Metalworking Skills (NIMS) Certification
- Core, Manual, CNC

**Languages**
- English for Speakers of Other Languages
- Assessment services
- World Languages

**Computer Technology**
- MS Office Suite
- Oracle Suite
- CompTIA A+ Certification
- Speciality software: Autocad/SolidWorks

**Fabrication & Field Service Technician**
- Electrical
- Mechanical
- Fluid & Pneumatic control
- Manufacturing Skill Standards Council (MSSC) Certified Production Certification

**Transportation & Logistics**
- MSSC Certified Logistics Technician program
- Diesel Engine Repair
- Industrial Diesel Engines
- Over The Road Diesel Engines
- Commercial Driver License (CDL) for Over the Road and Industrial support

**Industrial Technology**
- Construction
- Maintenance Technician

**Process Technology**
Training for careers in petrochemical plants and refineries.
- Process Technicians/Operator
- Research Technicians
- Laboratory technicians

**Project Management**
- PMP Exam prep
- Project Management Fundamentals I

**Quality Systems & Control**
- Basic Quality Control
- Intro to Lean Manufacturing
- 5S
- Lean Six Sigma
- Green belt
- Black belt
With a wide variety of course offerings, Lone Star Corporate College has developed a deep specialization in the following high-demand training areas:

**Welding Technology**
From introduction to the fundamentals of equipment used in oxyacetylene and arc welding, including welding and cutting safety, basic oxyacetylene welding and cutting, basic arc welding processes and basic metallurgy through advanced pipe welding positions.
- Assessments – Welding Procedures, American Welding Society (AWS) specifications, etc.
- Training (Core, Plate, Pipe & Structural)
- Non-Destructive Testing (NDT)/Inspection

**Machining Technology**
From Computer Numeric Control (CNC) operators or traditional manual machining, these introductory courses provide an understanding of the machinist occupation and using basic machine tools such as the lathe, milling machine, drill press, power saw, and bench grinder. Machine terminology, theory, math, part layout, and bench work using common measuring tools is included. Shop safety, housekeeping, and preventative maintenance emphasized.
- Training leading to National Institute of Metalworking Skills (NIMS) Certification
- Core, Manual, CNC

**Front Line Supervision**
A practical, interactive training program designed to equip new leaders, aspiring supervisors, current supervisors, leads, foremen, and any other first-line supervisors responsible for managing workers with the tools to manage and develop direct reports. Participants learn strategies for creating open communication and developing greater self-reliance in those they manage. In addition, each module’s between-session assignments are designed to increase the frequency and quality of conversations about performance and development between supervisor and direct report.
- Drilling supervisors
- Industrial and Manufacturing supervisors
- Construction supervisors

**Languages**
wide variety of ESOL programs to meet the diverse needs of the business community. Classes are offered days, evenings and weekends.
- English for Speakers of Other Languages (ESOL)
- Basic through Advanced
- Assessment services
- World Languages taught by native speakers

**Oil & Gas Training**
- Basic Principles of Oil and Gas – A basic understanding of the petroleum industry for technical/business professionals new to the industry or experienced in one area, investors/financial professionals with a need to better understand the petroleum industry, and all levels of industry support staff. Trainees learn the basics of upstream, midstream, and downstream activities including hydrocarbon deposits formation, exploration, and production. Trainees also learn how crude oil and gas conversion from raw material to finished products and delivered to markets, or traded worldwide, as a commodity.
- Drilling – Upstream training focused on land and safety.
  - Rig Pass®, Well Cap®, Safeland®
  - floorhand
  - motorhand
  - derrickhand
- International Oil & Gas Trainee Readiness Program
  - PC Fundamentals/ MS Office Suite
  - Business Etiquette
  - DynEd English Tutorials, DynEd Group English Immersion
- Continuing Education in Accounting, Project Management

**Fabrication & Field Service Technician**
Eighty percent of course is hands-on, technical skills training of most core industrial systems.
- Electrical
- Mechanical
- Fluid & Pneumatic control
- Manufacturing Skill Standards Council (MSSC) Certified Production Certification
- The purpose of the Certified Production Technician (CPTAE) program is to recognize individuals who demonstrate mastery of the core competencies of manufacturing production at the front line (entry level through frontline supervisor).

**Transportation & Logistics**
Trains individuals who manage the flow of goods, material, information and people from point of origin to point of consumption, fabrication and repair.
- MSSC Certified Logistics Technician program is for frontline material handling and includes two assessments: foundational level Certified Logistics Associate (CLA) and mid-level Certified Logistics Technician (CLT)
- Diesel Engine Repair
- Industrial Diesel Engines
- Over The Road Diesel Engines
- Commercial Driver License (CDL) for Over the Road and Industrial support

**Industrial Technology**
- Construction
- Maintenance Technician

**Process Technology**
Training for careers in petrochemical plants and refineries as process technicians/operators, research technicians or laboratory technicians.

**Project Management**
Prepares professionals for the Project Management Institute® or PMP® Certification Exam.
- PMP Exam prep
- Project Management Fundamentals I - Designed for project managers and team leaders, product development managers, engineers, marketing, operations, R&D and construction managers, functional and line managers who deal with project managers, and team members who manage tasks and sub-tasks on projects. Includes methods for planning and controlling projects, project management concepts and models, critical paths, analysis of time/cost benefits, and resource utilization.

**Quality Systems & Control**
- Basic Quality Control
- Intro to Lean Manufacturing
- 5S
- Lean Six Sigma
- Green belt
- Black belt

**Computer Technology**
- MS Office Suite
- Oracle Suite
- CompTIA A+ Certification
- Specialty software: Autocad/SolidWorks

**Communications**
- Presentation Skills
- Communication Strategies
- Train The Technical Trainer
- Train The Trainer
Lone Star Corporate College offers a number of open enrollment courses that can be customized for your organization and delivered at your worksite, at a Lone Star College campus, or online. Certification and/or college credit may be available for some courses.

---

**Some of the open enrollment offerings:**

**Distribution & Logistics**
- Global Logistics
- MSSC Certified Logistics Associate Certification Exam
- MSSC Certified Logistics Technician Certification Exam

**Information Technology**
- Cisco Training
- Oracle DBA
- Microsoft
- Adobe Photoshop
- Web Designer
- Web Developer

**Business, Management & Administration**
- Human Resources
- Supervision
- Train the Technical Trainer
- Project Management

**Language & Cultural**
- Workforce Communication
- Spanish
- Portuguese
- Chinese

---

**Hospitality & Tourism**
- ServSafe® Food Safety

**Energy & Manufacturing**
- Health & Safety
- Manufacturing Training
- Professional Truck Driving
- Machining
- Technical Math
- Skills Test Review
- Welding
- Oil & Gas
- PLCs
- Hydraulics
- AutoCAD
- SolidWorks
- Blueprint Reading & Sketching
Lone Star Corporate College offers seminars to help professionals complete licensure or certification requirements. Offered on a continuous basis throughout the year, these specialized seminars and workshops incorporate a variety of subject areas, including energy and manufacturing, business and leadership, technology, legal, safety, and health care. These events range in length from a few hours to a few weeks.

**Seminar and Workshop Topics:**

**Energy & Manufacturing Institute**
- Basic Principles of Oil and Gas
- Fundamentals of the Oil and Gas Industry
- Drilling
- Engineering Technician Assistant Pre-Apprentice
- Engineering Technician
- Machinist

**Business/Leadership/Technology**
- Global Logistics
- Lean Six Sigma Green Belt Certification
- Lean Six Sigma Black Belt Certification
- Oracle DBA: Administration Workshop I
- Oracle DBA: Administration Workshop II
- Oracle DBA: Introduction to SQL
- Project Management Fundamentals
- Project Management Exam Prep

**Safety**
- OSHA 30
- Train the Trainer
- Rig Pass
- Intro to WellCap

**Health Care**
- Massage Therapy: Ethics & Professionalism

**Legal**
- Family Law
- Civil Law
- Criminal Law

**Conferences & Seminars**
- Disney Conference
- Women’s Conference
- Workforce Education Conference
- Networking Lunch Series
- Professional Development Seminar Series
- Chick-Fil-A Leadercast
