This course is designed to meet the oil and gas industries need for an educated and prepared workforce, Lone Star College will implement a Fast-Track Drilling and Exploration Core Skills Certificate Program. This program is funded through a Wagner Peyser Grant from the Governor’s Office. The grant provides 135 full scholarships and requires priority to veterans, eligible veteran’s spouse and eligible foster youth. The Fast-Track program is 10 weeks of classroom and/or lab training that will provide entry-level knowledge and skills needed for workers in the drilling and exploration sector of the oil and gas industry.

Eligible and qualified candidates will be given the opportunity to take the skills assessment test. Scholarship awards will be finalized based on mandated priority and skill assessment scores.
