Date: Friday, April 27
(Registration # 17465)

Presented by: Lone Star Corporate College

Location: LSC-Kingwood
Student Conference Center
20000 Kingwood Dr.
Kingwood, TX 77339

Time: 9 a.m. to 4 p.m.

Hours/CEU's: 7.0

Cost: \$119

Description: In this seminar's morning session, you will learn about the changes in HIV/AIDS patients throughout the past 30 years. During the afternoon session, you'll hear an oral health update, which will include the latest research into the prevalence of HPV in the oral cavity, along with information about other emerging diseases and the consequences of these diseases on oral health.

Learning

Outcomes: Upon completion of the course, the learner will:

- Demonstrate comprehension of current issues or topics or new/updated guidelines.
- Describe the changes in the treatment of HIV/AIDS patients both medically and dentally.
- Describe the importance of educating dental patients about the relationship of HPV and oral cancer.
- Apply the course knowledge in the clinical setting to educate patients in the prevention of disease.

Presenter: Dr. C. Mark Nichols
Vice President of Clinical Services, Bering Omega Clinic
