PHARMACOTHERAPEUTIC UPDATE FOR THE DENTAL PROFESSIONAL
A REVIEW OF THE MEDICATIONS YOUR PATIENTS TAKE
Corporate College Professional Development Seminar

Dr. Cynthia Whitmire received both a BS in Pharmacy and Doctorate of Pharmacy from Samford University’s McWhorter School of Pharmacy. She is a clinical pharmacist and drug information expert who has presented numerous drug information and clinical update programs throughout the United States.

Dr. Clark Whitmire received a DMD from the University of Alabama School of Dentistry and JD from Samford University’s Cumberland School of Law. He completed a residency in anesthesiology at the University of Medicine and Dentistry of New Jersey – Robert Wood Johnson University Hospital and currently teaches and practices clinical anesthesia.

September 24, 2010
8:00 a.m. – 4:30 p.m.

Presented by: Clark Whitmire, DMD, JD
Cynthia Whitmire, PharmD, RPh

Location: LSC-University Park

Description: As new medications enter the pharmacotherapy market, staying up-to-date with the indications, contraindications and side effects of the medications prescribed to your patients may be daunting. This seminar will review the top 200 most commonly prescribed medications in the United States and present a practical overview of their therapeutic indications, applications and potential challenges for the clinical practitioner.

Learn to:
• Identify commonly prescribed medications to patients.
• Review the indications, contraindications and side effects of medications.
• Identify the potential challenges for the clinical practitioner.

CEUS: 7.0
