Date: March 21-June 20
(BUSXC 7100005 – Lean Six Sigma Green Belt)

Presented by: Lone Star Corporate College

Location: Lone Star Corporate College (Online)

Description: The online Lean Six Sigma Green Belt Preparation Course is made up of 11 separate sessions that follow the Define-Measure-Analyze-Improve-Control (DMAIC) project phase structure. Each session is a collection of related lessons and includes an interactive quiz at the end. Individual lessons also include simulations and interactive practice exercises. For your convenience, the course is supported by a Master Black Belt.

Who should attend: This series of courses prepares the student to become a quality Six Sigma Green Belt or Project Team Leader. The course material follows the DMAIC methodology and includes many lean principles and covers descriptive statistics. As a Green Belt or Project Lead, you will master the skills necessary to lead a complex process improvement project that produces bottom line results.

Objective: By completing this course of study, students will gain a solid general knowledge of the theory, composition and implementation of a Six Sigma initiative. Students will also become proficient in the basic analytical tools necessary to define, measure, analyze, improve, and control Six Sigma improvement projects, with the exception of design and analysis of experiments. In addition, students will learn team leadership and project management skills. At the end of study, students will be prepared to take the nationally recognized American Society of Quality (ASQ) Green Belt exam.

Online Hours: 80.30

CEU's: 8.0

Online Tuition Cost: \$3,300

Optional Administration and ASQ Exam Fee: \$500

ASQ testing in Houston: December 3 - Houston ASQ Chapter 1405
(Check AQS application deadline)

Students required to register with ASQ; LSC does not administer certification test
