OSHA 511
STANDARDS FOR GENERAL INDUSTRY – EMPHASIS ON OIL AND GAS
Corporate College Professional Development Seminar

October 12 – 15, 2010

Presented by: LSC-Corporate College in partnership with The University of Texas at Arlington

Location: LSC-University Park
20515 SH 249
Houston Texas, 77070

Meets: First three days 8 a.m. – 5 p.m.; last day 8 a.m. – noon, 4 Sessions

Description: This course covers the OSHA standards for general industry found in the Code of federal Regulations (CFR) 1910 along with other relevant policies, procedures, and safety and health principles for general industry. Standards will be addressed from the perspective of their applications with the oil and gas industry. Special emphasis is placed on those areas that are the most hazardous and most frequently cited by OSHA.

Bold Construction industry outreach trainers must take OSHA 502 every four years to maintain their status as an outreach trainer.

Learn to:
- Discuss prevalence and frequent cause of fatalities and injuries in general industry and in the oil and gas exploration and production industry.
- Describe important reasons for injury reduction and compliance with regulations.

Materials:
- Oil & Gas Industry: OSHA regulations from Parts 1903, 1904, 1910, & 1926 provided by UT Arlington.

Hours: 28.00
CEUs: 2.80
