JUNE 22 – 25, 2010

LOCATION: LSC-University Park

MEETS: 4 Sessions; Tuesday through Friday, 8 a.m. – 5 p.m.

DESCRIPTION: This trainer course is designed for personnel interested in teaching the OSHA 10- or 30-Hour Construction Outreach courses. Special emphasis is placed on required topics in the OSHA Outreach Program. Various instructional approaches and the effective use of visual aids and handouts will also be covered. Course participants will work in groups or independently to practice their presentation of selected topics. (Participants are encouraged to bring a laptop to work on presentation materials.) A written examination is given at the conclusion of the course. Successful completion of the course and the final examination allows the participant to be recognized as an OSHA Authorized Outreach Trainer for the Construction Industry.

Construction industry outreach trainers must take OSHA 502 every four years to maintain their status as an outreach trainer.

LEARN TO:
• Define construction terms found in the OSHA standards
• Present effective safety and health training programs in accordance with OSHA’s construction standards, regulations, and guidelines
• Identify hazards that occur in the construction industry and determine appropriate standards
• Prepare reports citing conditions found
• Identify methods to correct hazards

MATERIALS:
• 29 CFR 1926 Construction Safety Standard provided by UT Arlington.
• Due to course content we highly recommend bringing a laptop.

PREREQUISITES:
Five years relevant experience in the construction safety and health field and Completion of the OSHA 510 to confirm enrollment in this class.

HOURS: 32.00
CEUS: 3.20
