## ASSOCIATE OF ARTS DEGREE AND ASSOCIATE OF SCIENCE DEGREE

These programs are designed primarily for students who desire to continue their education at a four-year college/university. At Lone Star College System, the Associate of Arts degree and the Associate of Science degree are generalized degrees. Each degree will not list a specific major but will be called associate of arts or associate of science.

While certain courses are recommended, the requirements are essentially the basic first year and second year offerings appropriate for the first two years of many baccalaureate degree programs. Students who successfully complete the degree requirements of the programs of study will be eligible to receive the Associate of Arts degree or the Associate of Science degree from Lone Star College System.

### Core Requirements for the Associate of Arts and the Associate of Science:

A course cannot count toward more than one **requirement** of the degree with one exception – the **multicultural requirement**.

## FIELD OF STUDY CURRICULUM

Field of study curricula were mandated in Senate Bill 148 of the 75<sup>th</sup> Texas Legislature (1997). The field of study curricula will satisfy the lower division requirements for a bachelor's degree in a specific academic area at a general academic teaching institution. The student will receive full academic credit toward the degree program for the block of courses transferred, which will meet that institution's lower division requirements for the degree program in the field of study into which the student transfers. Check with the transfer institution for general education and degree program requirements.

A student who transfers from one institution of higher education to another without completing the field of study curriculum of the sending institution shall receive academic credit in the field of study curriculum of the receiving institution for each of the courses that the student has successfully completed in the field of study. The field of study curricula that have been approved are: Business, Computer Science, Criminal Justice, Music and Speech Communication.

## International Studies Area of Concentration (AOC)

Associate of Arts with Area of Concentration in  
International Studies

(AA\_FIBU offered at LSC-CyFair, Kingwood,  
Montgomery, North Harris, and Tomball)

The International Studies AOC is an introduction for freshman/sophomore college students to global studies with an emphasis on the 20th and 21st centuries. By taking a diverse set of courses with a world view, students will broaden their perspectives and gain an appreciation and awareness of the global community. Students desiring to work toward a major in international education can complete the requirements for the Associate of Arts degree and the AOC hours for international education. There is a 15-hour minimum for this area of concentration with a two-year foreign language component. Students must complete at least 50% of the courses within the colleges of the LSCS to receive this AOC designation. Upon successful completion, graduates will receive an AA degree with an AOC in international education. AOC courses must be selected from those sections designated in the schedule as international studies sections (IS).

Elective Foreign Language	6-8
GEOG 1303 World Geography	3
Elective Foreign Language or International Studies	6-8

**TOTAL Credit Hours for International Studies  
Area of Concentration** 15-19

Students must also complete the core computer literacy requirement.
