

# Academic Policies, Procedures and Services

## Course Numbering System

Courses numbered from 1000 to 2999 are college-level courses.

Courses numbered 0000 to 0999 are considered developmental/pre-college level. These courses carry institutional credit, but are not considered transferable. Credits from these courses do not meet degree requirements.

## Credit for Courses

The semester hour is the unit of measurement at Lone Star College. One semester credit hour is generally defined as one hour of class per week for a 16-week semester lecture course. The number of semester hours for a course which includes a laboratory, practicum, or internship component varies.

It is the student's responsibility to take courses in sequence and at the proper level. Students are encouraged to seek advising prior to enrollment each semester.

## Flexible Schedule Options

The colleges of LSCS offer a number of alternative scheduling options in addition to the traditional semester length college credit courses. Some of these options require fewer student trips to campus.

### Hybrid Classes:

Hybrid classes are a combination of online instruction and campus-based instruction.

### Online Learning:

The instruction for online learning classes is delivered via the Internet. Students must have access to a computer and Internet services. Proctored exams at an approved location may be required. Students enrolling in online classes are expected to login to their classes before the end of the first day of the class. Students having any difficulties should contact the LSC Online helpdesk by going to [LoneStar.edu/lsc-online](http://LoneStar.edu/lsc-online) to chat with a helpdesk representative, call 832.813.6700, or e-mail [distance.learning@lonestar.edu](mailto:distance.learning@lonestar.edu).

### Weekend College:

Courses are scheduled Friday night, Saturday or Sunday. Meeting times vary by campus.

### Mini-Mester Terms:

Typically, mini-mesters are offered in December and May each year in a condensed timeframe with a standard number of contact hours.

### Condensed Formats:

Selected courses are available in accelerated time frames of fewer than 16 weeks. All courses meet the standard number of contact hours.

## Class Attendance

Students are expected to abide by the faculty member's attendance policy as stated in the course syllabus. It is the student's responsibility to consult with faculty members regarding absences and the possibility of make-up work. Attendance in hybrid or other classes is not optional.

## Student Absence on Religious Holy Days

The student must notify the faculty member in writing within the first 12 days of the semester of the intent to be absent due to a religious holy day. Under Texas Education Code 51.911, a student who is absent from classes for the observance of a religious holy day shall be allowed to take an examination or complete an assignment scheduled for that day within a reasonable time as established by the faculty member.

## Course Outcomes and Examinations

Course outcomes are provided in the faculty member's course syllabus to students at the beginning of each course. The evaluation of student course progress and the final grade are based on the degree of mastery of course outcomes.

A final examination or evaluation activity will be given in each course at the end of each semester during the scheduled examination period unless the faculty member has made special arrangements with the appropriate vice president.

## Grading Standards

There are four grades indicating that grade point credit has been received. One grade (F) and marks listed below indicate that no credit has been achieved. The marks are an accounting device to indicate enrollment in courses with no credit received and no grade points awarded. A mark of CR indicates that

the student has received credit for a course but no grade was awarded. In some program areas such as developmental studies and nursing, a grade of "C" or above is required to meet degree requirements or indicates that credit has been received.

Using the following system, final grades or marks are reported for each student for every credit course taken:

Credit Grade/Marks Interpretation	Grade Points
A Excellent Performance	4
B Good Performance	3
C Acceptable Performance	2
D Passing (not available for developmental studies courses)	1
F Failing	0
I Incomplete. Given instructor approval, work must be completed according to the timelines on the "I" contract but no later than the end of the subsequent fall or spring semester. Failure to complete the work within the specified time will result in an "F." A student should not register again for a course in which a mark of "I" has been given. If the student registers for the course, the "I" will change to a grade of "F."	Not Computed
W Withdrawal	Not Computed
IP Course in progress (for developmental courses). Students who earn an IP have participated fully in the class but have not met all criteria for making progress to the next level of courses. IP remains on the transcript.	Not Computed
NR No Grade reported by faculty member	Not Computed
* Course repeated at LSCS	Not Computed
NC No credit (prior to September 1982)	Not Computed
X No credit (prior to September 1975)	Not Computed
P Course in Progress (prior to September 1993)	Not Computed
CR Credit awarded	Not Computed

  

Continuing Education Grades	
S Satisfactory	
N Non-Satisfactory	

## Grade Point Average

Grade points earned for each course are determined by multiplying the number of points for each grade by the number of credit hours the course carries. For example, a student who takes a three-hour course and earns an "A" accumulates 12 grade points for that course. A student's grade point average is

computed by adding the grade point values for all college-level courses for which grade point values (A, B, C, D, and F) may be computed, and dividing this total by the appropriate number of credit hours attempted during the same period. Only hours for which grades are awarded are used in calculating the grade point average.

## Academic Accountability

The academic standards of LSCS are based on a philosophy of maximizing student progress toward successful course and program completion. Academic success in college requires maturity and dedication to regular and well-defined study habits. Academic standards criteria are designed to monitor student progress so that the student and college staff can explore options to assist students who have difficulty meeting minimum requirements for successful course or program completion.

Academic standing is computed at the end of each enrollment period and is based upon the following grades and marks (A, B, C, D, F) earned by the student at LSCS. Different grade point average calculations are used in determining academic standing:

- **Semester Grade Point Average (GPA):** Includes grades earned in all courses at LSCS during the most recent semester (includes developmental courses).
- **Cumulative Credit GPA:** Includes grades earned in all credit classes at LSCS.

### Academic Standing Categories:

- **Good Standing:** A student will be considered to be in good academic standing when the student earns both a semester and a cumulative GPA of at least 2.0.
- **Academic Progress:** A student will be considered to be making academic progress when the student earns a semester GPA of at least 2.0 but has a cumulative GPA less than 2.0.

Students who do not maintain the minimum GPA outlined above will be placed on academic warning, academic probation, continued academic probation or academic suspension. These four academic status levels alert the student, faculty and staff to problems in the student's academic performance so that strategies for intervention and assistance can be employed.

Students placed into one of the following academic standing categories are expected to take advantage of the many resources available on each campus and are encouraged to establish contact with their college advising center for additional support and assistance.

In addition, students whose status is other than "good standing" may be required to register for a reduced course load, register for specific courses, or participate in specially designed programs designated by the college.

- **Academic Warning:** The first time a student earns a semester GPA of less than 2.0, the student is placed on academic warning.
- **Academic Probation:** The second time a student earns a semester GPA of less than 2.0, the student is placed on academic probation.
- **Continued Academic Probation:** A student will be placed on continued academic probation when the student: 1) has been on academic warning and probation and; 2) has a cumulative GPA that is 2.0 or higher; and 3) has a semester GPA that is less than 2.0. Students may still enroll in courses under the guidelines stated above.
- **Academic Suspension:** A student with a continuing history of low academic performance is placed on academic suspension when the student: 1) has been on academic warning and probation; 2) has a cumulative GPA below 2.0; and 3) has a semester GPA below 2.0. An academic suspension will result in a student being denied enrollment for a minimum of one spring or fall semester. Students desiring to appeal a suspension must follow the guidelines stipulated by the individual college at which the majority of their courses have been completed. For more information on appealing a suspension, students may contact their college counseling center.

A student who re-enters the college after having been suspended will return on academic probation status and will be subject to the requirements outlined above.

**Financial Aid Students:** Students receiving financial assistance must make satisfactory academic progress in accordance with this system policy and are also subject to the academic progress requirements governing financial assistance awards. Students on academic warning, probation, continued probation, or suspension, and also receiving financial assistance are encouraged to contact their college financial aid office to determine further eligibility.

## Academic Achievement Recognition

There are several ways that outstanding academic achievement by students is recognized at LSCS colleges. Graduates are recognized as follows:

- Students who earn a degree from a LSCS college with a cumulative GPA of 3.9-4.0 will be acknowledged by **Summa Cum Laude** on the diploma.
- Students who attain a cumulative GPA of 3.7-3.899 will be acknowledged by **Magna Cum Laude** on the diploma.

- Students who attain a cumulative GPA of 3.5 - 3.699 will be acknowledged by **Cum Laude** on the diploma.
- Students receiving a certificate with a cumulative 4.0 GPA will be acknowledged by **With Distinction** on the diploma in recognition of this achievement.

Currently enrolled students are acknowledged each semester through the President's List if they have accumulated at least 12 credit hours (including developmental studies hours) and have a semester grade point average of 3.30 or above for 6 or more credit hours completed that semester. All "I" grades must be changed to a letter grade prior to computing the semester GPA for President's List status.

### Honors Program:

LSCS offers an innovative honors program for highly motivated, academically capable students. Honors students enjoy the freedom to work independently and collaboratively with faculty who encourage lively, engaging discourse and challenging activities inside and outside the classroom.

Honors credit is earned through special contracts or classes with faculty members who are committed to an open-ended approach to learning. Students have many opportunities to contribute extensively and creatively through small group interaction, seminars, laboratories, oral reports, special research topics, informed discussion, and/or individual and group projects.

Involvement in the **Honors Program** can result in several levels of recognition for students. These are:

- Students successfully completing an **honors course** will receive appropriate designation on their transcripts.
- Students who complete 15 hours of honors credit with a 3.5 GPA will be recognized at commencement and will receive the designation of **Honors Program Graduate** on their transcript.
- Students completing 9 hours of honors credit with a 3.5 GPA and 25 hours of community service will be recognized at commencement and will receive the designation of **Honors Scholar Graduate** on their transcript.
- Students who complete 15 hours of honors credit with a 3.5 GPA and 25 hours of community service will be recognized at commencement and will receive the designation of **Honors Scholar with Distinction** on their transcript.

### Phi Theta Kappa:

Colleges within the system all have active chapters of Phi Theta Kappa International Honor Society. Students who have a 3.5 cumulative GPA or higher, have completed at least 12 college-level credit hours, and are currently enrolled in at least three credit hours are eligible for membership. In addition to emphasizing academic excellence, Phi Theta Kappa International Honor Society promotes the hallmarks of leadership, service, and fellowship among its members. In recent years, members from the colleges' chapters have held several leadership positions within both the international and the Texas region of this society and have been recognized with numerous awards. Graduating students belonging to the local and national Phi Theta Kappa International Honor Society will be recognized in the commencement program and wear the Phi Theta Kappa International Honor Society stole with their regalia.

### Service Learning:

Service learning combines community service with academic instruction to create an opportunity for experiential learning. Students will find service learning opportunities offered in a variety of courses system-wide. Students who engage in a minimum of 15 contact hours of service learning activities in a course will receive service learning designation for the course on the transcript.

### Recognition of Non-Traditional Learning Experiences

Students with certain documented learning experiences may be eligible for course credit through faculty assessment. Credit is awarded only to experiences that equate to a LSCS course number and description.

### Advanced Standing

Advanced standing permits the student to move to more advanced work by the equating of test results, previous grades, and/or interviews by the appropriate department. Advanced standing is not placed on a student's official transcript. No credit is awarded. There is no fee for this evaluation. Contact the dean of the specific subject area for more information.

For additional information and levels/scores for advanced standing, contact the counseling/advising office.

## Prior Learning Assessment (PLA)

Prior Learning Assessment (PLA) allows students to demonstrate their knowledge in a number of content areas for credit. This arrangement offers students an opportunity to lower costs and prevent repetition of material mastered outside the traditional college experience. LSCS faculty assess employment, industry certification/licenses, non-credit workforce training, corporate training, exams and military service for potential college course credit. Students enrolled in a course on or after official day may not request credit for a prior learning experience. For student eligibility criteria, limitations and guidelines, visit LoneStar.edu/PLA. Students must request assessment of their learning experience with a campus advisor. Students who wish to transfer PLA credit must verify transferability with the academic institution of interest.

No more than 50% of the credits on a certificate program or associate degree may be earned from Prior Learning Assessment methods. No more than fifteen (15) semester credit hours may be awarded from PLA by means other than recognized evaluative examinations.

### Internal Challenge Exams

Course challenge exams are developed and approved by LSCS curriculum teams and administered by the campus. The same course challenge exam is used at all campuses.

1. Each examination may only be attempted one time.
2. Credit by examination will be recorded on the student's official transcript without grade equivalent or inclusion in the student's GPA.
3. Applicable test fees must be paid in advance.

The following courses can be completed by taking an internal challenge exam. For further information on exams and other course requirements, go to LoneStar.edu/PLA or contact the program area of interest at a LSCS college.

AUMT 1405	EMSP 2348	PHRA 1309
AUMT 1407	EMSP 2434	PHRA 1347

EMSP 1356	PHRA 1102	SLNG 1211
EMSP 2330	PHRA 1304	WLDG 1428
EMSP 2338	PHRA 1305	WLDG 1457

\* Student must provide evidence of current LMRT licensure before taking any RADR challenge exam.

### External Examination

LSCS curriculum teams evaluate various external challenge exams for course matches.

Prior learning assessment credit may be obtained by different academic examinations in certain subject areas.

1. Achievement Test (ACT)
2. College level examination program (CLEP): Specific subject areas only. -Students may resubmit new CLEP foreign language scores for PLA every six months.
3. Advanced placement program by the college board. The AP College Board tests are offered through the high schools.
4. International Baccalaureate (IB) diploma program examinations.

LSC-Tomball, LSC-North Harris, and LSC-University Park are the official testing sites for CLEP exams at LSCS. The registered LSC-Tomball CLEP test center number is 8720, and the phone number is 832.559.4245. The registered LSC-North Harris CLEP test center number is 6508, and the phone number is 281.618.5744. The registered LSC-University Park CLEP test center number is 4246, and the phone number is 281-401-5314.

\* LSCS essay required.

\*\* Portfolio review with LSCS faculty.

**Note:** A fee of \$25 per assessment will be charged for any additional assessments needed.

## Portfolio

LSCS may award course credit to students who can document content mastery. Credit is generally awarded only for introductory level courses. Application details and eligibility requirements are available at [LoneStar.edu/PLA](http://LoneStar.edu/PLA).

### Licensure or Industry Certification

LSCS curriculum teams evaluate professional certifications and state licenses for course matches. Official and current documentation is required for eligibility. Visit [LoneStar.edu/PLA](http://LoneStar.edu/PLA) for a list of certifications and licenses accepted for credit.

### Non-Regionally Accredited

Students who attend institutions not accredited by regional accrediting entities must pursue prior learning assessment to request LSCS course credit. Visit [LoneStar.edu/PLA](http://LoneStar.edu/PLA) for student eligibility requirements and application instructions. See an advisor/counselor for additional assistance.

## American Council on Education (ACE)

ACE uses expert evaluators to review workplace training, military experiences and national exams for potential college credit matches. ACE provides colleges and universities with recommendations, and acceptance of suggested course credit is the prerogative of the college. Students seeking credit for ACE reviewed trainings and exams must provide an ACE transcript. Military veteran students should visit with a VA advisor for assistance with requesting credit by ACE. Visit [LoneStar.edu/PLA](http://LoneStar.edu/PLA) for further details.

### Continuing Education Articulation

Students have the opportunity to earn college semester credit hours for certain LSCS Continuing Education (CE) courses. Students must meet all admissions requirements for credit enrollment before requesting PLA credit through CE articulation. Visit [LoneStar.edu/PLA](http://LoneStar.edu/PLA) for eligibility requirements and a list of CE courses eligible for articulation.

---

## Other Foreign Language Placement Exams

The CAPE exam is a computerized placement exam for non-native speakers of the language. The Spanish Heritage Learner Exam is for native speakers of Spanish, individuals who are competent through some other life experience or those who score 425 or higher on the S-CAPE exam. Students will be placed into the appropriate course as indicated below. Upon completion of the course with a grade of C or better, the student receives credit for the course and may request PLA credit for certain lower level courses. See [LoneStar.edu/pla-exam-foreign-language](http://LoneStar.edu/pla-exam-foreign-language) for details and applicable fees.

CAPE- French/German/Spanish		Spanish Heritage Learner Exam	
CAPE Score	Class Placement	Score	Class Placement
277-329	Student places in 1412	0-25	Student places in SPAN 1411
330-389	Student places in 2311	26-49	Student places in SPAN 1412
390-424	Student places in 2312	50-69	Student places in SPAN 2311 or 2313
		70-100	Student places in SPAN 2312 or 2315

## Academic Integrity

The Lone Star College System upholds the core values of learning: honesty, respect, fairness, and accountability. The system promotes the importance of personal and academic honesty. The system embraces the belief that all learners – students, faculty, staff and administrators – will act with integrity and honesty and must produce their own work and give appropriate credit to the work of others. Fabrication of sources, cheating, or unauthorized collaboration is not permitted on any work submitted within the system.

The consequences for academic dishonesty are determined by the professor, or the professor and academic dean, or the professor and chief student services officer and can include but are not limited to:

1. Having additional class requirements imposed,
2. Receiving a grade of zero or “F” for an exam or assignment,
3. Receiving a grade of “F” for the course,
4. Being withdrawn from the course or program,
5. Being expelled from the college system.

Professors should clearly document how the student’s actions violated the academic integrity policy, how a grade was calculated, and the actions taken.

## Academic Appeals

An academic appeal is a formal request by a student to change a grade or to challenge a penalty imposed for violation of standards of academic integrity such as plagiarism or cheating. A request to change a grade or to challenge a penalty must be made within 12 months of the action. A grade may only be changed by the instructor of record (or by a full-time instructor in the absence of the instructor of record) or by the Academic Appeals Committee. Students in specialized disciplines should check their student handbook for program-specific appeal procedures.

An academic appeal will be considered if there is evidence that one or more of the following conditions exist: (1) error in calculation of grade; (2) deviation from the syllabus or system policy manual; (3) dis-

parate academic treatment of a student that is not addressed by EEO processes; or (4) inappropriate penalties imposed for an academic integrity violation. An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor’s professional judgment of the quality of the student’s work and performance is also not an admissible basis for an academic appeal.

Before a student brings an academic appeal, he or she should first meet with the instructor to request that a change be made. If the student is not satisfied with the outcome or cannot consult with the instructor, he or she must meet with the appropriate dean to determine if resolution can be reached.

If resolution is not reached and the student desires to pursue the appeal, the student will state specifically the basis of the appeal in writing to the instructional vice president. If the instructional vice president determines that the appeal does not meet the requirements of this policy, he/she shall communicate this in writing to the student. The decision of the vice president is final.

If the instructional vice president determines that the appeal is appropriate under this policy, he/she will convene the Academic Appeals Committee to consider the complaint. The instructional vice president will notify the student regarding the Academic Appeals Committee meeting date, his/her rights, and next steps in the process.

Refer to the website for more information: [LoneStar.edu/academic-appeal](http://LoneStar.edu/academic-appeal). The decision of the Academic Appeals Committee is final.

## LSCS Libraries

The library at each campus provides access and user privileges to resources and services for students, faculty and staff in support of their curricular, workforce and leisure needs.

The libraries maintain a common library catalog of holdings and provide online access to a variety of collections and information including full-text databases, indexes to journals, and a variety of internet resources. Library users are able to access electronic resources remotely from their home computers or from their job workstations.

The libraries also provide a variety of methods for students to interact with library staff. Library facilities and selected services are available to the community according to system-wide policies.

LSCS libraries participate in several reciprocal / joint borrowing agreements. Through the Harmonic Consortium, the LSCS libraries provide borrowing privileges with the Montgomery County Memorial Library System and the Harris County Public Library System. Other partnerships provide additional access to other resources throughout the state and the nation.

Student holds, including library holds bar the release of official transcripts. Students are responsible for clearing their library records. Library holds are removed when all obligations with the library are cleared.

For more information visit the library website at [www.LoneStar.edu/library](http://www.LoneStar.edu/library).

## Learning Centers

Learning Centers at each college provide facilities and services to extend learning beyond the classroom and to enable students to achieve academic goals. Services may include individualized tutoring in reading, writing, math, science, foreign languages, ESOL and other disciplines, group sessions and workshops on student success skills, research skills, course related materials, Internet access, and computer programs, as well as academic testing. Facilities may include computer labs providing access to e-mail, the Internet, and course related software, as

well as specialized labs supporting specific disciplines. Materials supporting both direct course outcomes and generalized study skills are available from the Internet, in print, or through audio-visual aids.
