This program is designed for students interested in becoming a registered nurse (RN). The curriculum is organized around a series of concepts progressing from simple to complex.

Lone Star College has agreements with many colleges and universities that allow ADN graduates to earn their BSNs. The integrated programs also offer the Transition to Professional Nursing Program for articulating students designed for licensed vocational nurses (LVNs) or paramedics to become ADNs.

If you have a passion for caring for people, the nursing profession might be for you. Supportive faculty and staff are here to help you build a strong foundation for your nursing career. Student experiences include hands on laboratory, classroom, and clinical facility rotations. LSC Nursing Programs offer state of the art simulation equipment and laboratories. Dedication to the program is important as you develop the necessary knowledge and skills for degree completion. Please note that this is a competitive admission program.
