Skin and Somatic Receptors
Epidermis
Epidermal Layers

- Stratum Corneum
- Stratum Lucidum
- Stratum Granulosum
- Stratum Spinosum
- Stratum Basale
  (Melanin produced by melanocytes)
Dermis
Dermal Papillae
Hypodermis (Subcutaneous)
Glands: Cutaneous Sweat

Apocrine (arm pits, groin)

Eccrine (hands, feet)
Glands: Cutaneous
Sebaceous (secretes sebum)
Receptors and Somatic Senses

- Meissner’s Corpuscle
- Free Nerve Endings
- Pacinian Corpuscle
