Sample keywords/terms: asepsis, antisepsis, disinfection, infection control, medical devices, medical instrumentation, operating room equipment, pathogenic organisms, perioperative, pharmacology, postoperative, preoperative, standard precautions, sterilization, surgical pathology, surgical procedures, surgical site infection, wound classification

Try browsing these subjects: asepsis, drugs, medical instruments and apparatus, operating room technicians, sterilization, surgery, surgical instruments and apparatus, surgical technology

Try phrases that link: diagnostic tools AND (surgery OR surgical procedure), operating room AND current events, surgical technology AND (roles OR responsibilities)
Internet Resources

- **Anesthesia and Pain History**
  From Massachusetts General Hospital Department of Neurosurgery

- **MedlinePlus (National Institutes of Health)**
  Contains extensive information on over 740 diseases/conditions and prescription and nonprescription drugs. Other key features are a medical encyclopedia, a medical dictionary, and hundreds of videos of actual surgical procedures performed at U.S. medical centers in recent years.

- **MedlinePlus: Surgery**
  From the National Library of Medicine, authoritative, current information on a wide range of surgeries. Take special note of the sections on Latest News and the interactive patient tutorials.

- **MedlinePlus: Videos of Surgical Procedures**
  Actual surgical procedures performed at medical centers in the U.S. since 2004.

- **Medscape**
  Free access to full-text, peer-reviewed clinical medicine articles.

- **OSHA Hospital E-Tool: Surgical Suite Module**
  Click on the various objects in the surgery area to get information about potential health and safety issues related to them.

- **PubMed**
  Over 17 million citations for biomedical articles back to the 1950 provided by the National Library of Medicine. Limited full-text.

- **Spartanburg Technical College Surgical Technology Web**
  This site provides a glossary of surgical technology terms and includes photographs of instruments, equipment, and operating room setups.

- **Surgical Instruments from Ancient Rome**
  A display of surgical instruments from antiquity.

- **The Virtual Medical Center – Anesthesiology & Surgery Center**
  Links to medical dictionaries and glossaries, interactive anatomy browsers, and online medical journals, as well as surgical and anesthesiology sites.
