If your instructor set up a dropbox so that you can view Originality Reports or Grademark feedback, you can use the following steps to locate the reports.

1. Click **Assessments** on the navbar and choose **Dropbox**.

2. On the **Dropbox Folders** page, find the Dropbox you’re looking for and click the **View** icon in the Feedback column.

The Turnitin Similarity column shows your similarity score. This is how similar your submission is to other submissions in our institution and the Turnitin database of submissions. If you have questions, contact your instructor.

3. Click on the colored bar under Turnitin Similarity to view the feedback that your professor has provided in Turnitin.
