

English

The Department of English strives to provide students with opportunities to grow as learners and as individuals. Students in the English program may, through study of literature, gain an awareness and knowledge of themselves and their contemporary world. Other English students combine their cultural interests with specific vocational objectives, such as professional writing, teaching, or pre-professional training for law, business, or medicine.

English forms the cornerstone of humanities. In a variety of courses in literature, writing, and the English language, SHSU English students find a source of personal enrichment, and they develop verbal, analytical, and cultural skills readily adaptable to a variety of careers. English students learn to write with grace and precision, to read and analyze texts with accuracy, to conduct research and organize a welter of materials, and to speak and listen well in order to sharpen their critical thinking and inquiry skills. These skills are highly valued by prospective employers. Most professions stress above all else the ability of their employees to read, write, and speak well, and critically analyze information.

Students may be eligible for an Associate's Degree from Lone Star College System after their first two years of study. Please see your Lone Star College advisor to check the requirements or refer to your LSC-Catalog pages 86-87. A maximum of 66 hours may transfer from a community college. The Bachelor of Arts degree may be taken with an approved minor and requires a minimum of 120 credit hours.

LSCS and the partner universities provide equal employment, admission, and educational opportunities without regard to race, color, religion, national origin, sex, age or disability.

The staff members in the Academic Student Services Office at the LSC-UC assist all students in determining which program of study to pursue. This includes providing information about the variety of programs available, reviewing transcripts to aid in identifying any courses to be completed before entering the program of choice, and serving as liaison between the student and university program representatives. Students who have already earned an Associate's Degree or have a substantial number of college academic credit hours should contact the Academic Student Services Office for advising and to begin the transfer admission process for the university offering the degree program they desire to pursue.

This brochure was created by the Academic Student Services Office based on information from the partner university.
