

About LSC-UNIVERSITY CENTER AT MONTGOMERY

Who we are ...

The Lone Star College-University Center at Montgomery is an alliance of three universities, Lone Star College System and the private sector. Its mission is to provide bachelor's degrees, master's degrees and continuing studies to the more than one million people in the college system service area. The LSC-University Center at Montgomery is the only one of its kind in Texas and one of only a handful nationwide.

What we can offer ...

The LSC-University Center at Montgomery's 78,000 square foot, three-story facility features:

- 8 fully interactive/videoconference classrooms
- 4 fully interactive/videoconference seminar rooms

Meeting and Conference SERVICES

Looking for a UNIQUE MEETING FACILITY?

Welcome to Lone Star College-University Center at Montgomery

Imagine attending a business professional development or training meeting hundreds of miles away without leaving your home town. Lone Star College-University Center at Montgomery offers the use of information technology, interactive systems and telecommunications for the delivery of instruction and interactive communication. Through a series of television monitors at each teleconferencing site, cameras follow the guest speaker and focus on individuals in attendance – and microphones transmit the speaker and allow attendees to participate in the discussion as well.

Some of the most successful U.S. corporations and companies abroad are practicing interactive communication and the entire concept of distance learning. It makes total sense for corporations to embrace this form of information sharing to transact daily business on a global basis.

The LSC-University Center at Montgomery also offers regular meeting rooms, a tiered lecture hall, work space for meeting coordinators, and kitchen and catering areas. Room capacities range from 10 to 84, although seating arrangements and interactive connectivity may provide for increased capacities.
