

# Finance

The Finance, Accounting and Computer Information Systems (FACIS) Department at the University of Houston-Downtown prepares its students to compete effectively and successfully in a professional capacity. The department offers a quality undergraduate program with faculty known for their outstanding instruction and scholarly research.

Finance majors at UHD learn how to evaluate the impact of managerial decisions on a firm's profitability. The students develop financial management and strategic planning skills necessary for today's business environment. Careers in Finance offer a high potential for rapid advancement. A graduate in finance can find career opportunities in financial management, in financial institutions, investment fields, and in governmental agencies, such as the Federal Reserve. The Finance major prepares students for these careers as well as helps to prepare them for CFA (Chartered Financial Analyst) or CFP (Certified Financial Planner) certification.

Coursework provides a sound theoretical foundation in financial markets and financial management of businesses, together with study of other aspects of business management required of all business graduates. All students seeking degrees from UHD must complete approximately 42 credit hours which make up the general education core. UHD business majors complete the business core and Finance majors take hours in required finance courses. The degree consists of 120 total credit hours.

The staff members in the Academic Student Services Office at the UC assist all students in determining which program of study to pursue. This includes providing information about the variety of programs available, reviewing transcripts to aid in identifying any courses to be completed before entering the program of choice, and serving as liaison between the student and university program representatives. Students who have already earned an associate's degree or have a substantial number of college academic credit hours should contact the Academic Student Services Office for advising and to begin the transfer admission process for the university offering the degree program they desire to pursue.

This brochure was created by the Academic Student Services Office based on information from the partner university.
