The following is a preliminary analysis of enrollment data based on students enrolled as of September 11, 2007. It should be noted that this analysis includes all students enrolled in courses for the fall 2007 semester including those in late start classes. The data are taken from the Census day downloads from fall 2006 and fall 2007.

It should be noted that overall, the unduplicated student headcount as of the census date was up by about 2,600 students or 6.3%, increasing from 41,200 to 43,816 unduplicated students. This increase in students was fairly well distributed across the various demographic groups. At the colleges, Montgomery's 9.3% increase was the highest, followed by Cy-Fair (9.2%), Kingwood (6.8%), Tomball (5.6%), and North Harris (4.1%).

**Gender, Ethnicity and Age**

While the number of female students continues to out-pace that of males District-wide, the proportion of male students increased slightly from fall 2006 to 2007—from 39.6% to 39.8%. Increased in the proportion of male students were North Harris (37.8% to 38.7%) and Cy-Fair (41.6 to 42.0%). Slight decreases in the percent of male students occurred at Kingwood (36.2 to 35.8), and Montgomery (39.1 to 37.9). Tomball remained consistent (39.0% to 39.1%). [See Demographics--Proportion of Students]

The proportion of minority students continues to show increases district-wide. Those indicating they are white declined from 52.2% to 49.8%. The proportion of blacks increased slightly from 11.2% to 11.3%, while that of Hispanics increase from 22.1% to 23.9%, continuing a multi-year trend. This increase held for all colleges. This means that in fall 2007, 35.2% of NHMCCD students are black or Hispanic. It should be noted that the number of students
selecting "Other" increased from 4.3% to 5.5% and the percentage of Asian students increased from 6.2% to 6.4%. By college, the percent of students who indicate they are black or Hispanic is 55.0% at North Harris, 26.3% at Kingwood, 25.6% at Tomball, 22.9% at Montgomery, and 37.6% at Cy-Fair.

The proportion of fall students younger than 25 saw little change—students under 20 increased from 37.6 to 38.0% district-wide, while those between 20 and 24 decreased from 32.1% to 31.7%. There were differences by college. For example, at Kingwood, the proportion of students under 20 increased from 36.5% to 38.1%.

Residence—ISD

The increases in students overall was reflected in increases across the ISDs where students indicate they live. Cy-Fair ISD increased by about 681 students continuing to make it the fastest growing ISD in terms of representation in the district, and also the largest, with 10,765 residents attending one or more NHMCCD college. Other ISDs with increases over 100 students
were Humble (+378), Conroe (+210), Klein (+199), Willis (+129), and Spring (+102). [See Demographics--ISDs of Students Served]
