Heading for reference list page is “Bibliography”. Reference list page is double-spaced. Italics are used for book and journal titles (underlining no longer used). First line of entry flush with margin, second and subsequent lines indented 5 to 7 spaces. Alphabetize by author’s last name. First names should be listed as they appear on the title page. If no author, alphabetize by first significant word in title. Footnotes and endnotes listed and numbered in order they appear in text. Notes are single spaced with the first line indented.

**Print Sources**

**Book—One Author (17.26)**

**Book—Two Authors (17.27)**

**Book—Three to Ten Authors (17.28-.29)** (List author names in order in which they appear on the title page. Use “and” only in front of last author’s name)

**Book—Eleven or More Authors (17.30)** List only the first seven authors, followed by “et al.”. Use the same formatting as for three to ten authors.

**Book—Signed Article in a Multiauthor book (17.69)**

**Reference Book—no author or editor (17.32, 17.238)**

**Encyclopedia or Dictionary (17.238)** Well known works are cited in note, not bibliography. Cite item used in an alphabetically arranged work.

**Magazine Article (17.182)**

Journal Article (17.159-.168)

Article from a Newspaper (17.191) Newspapers are more commonly cited in notes or parenthetical references than in bibliographies. The works cited pages do not need to include newspaper articles if they have been internally documented in the text. *(Denver Post, May 13, 2006)*
