

UNIVERSITY PARTNERS

Lone Star College University Partners

Higher Education Close to Home

The Lone Star College University Centers offer junior, senior, and graduate level classes through partnerships with several universities. Students who enroll with one of the partner universities on site at either The Woodlands or University Park locations are able to complete a bachelor's or master's degree (or teaching certificate) without traveling to the main university campuses. Doctoral programs from Our Lady of the Lake University and Sam Houston State University are also available at The Woodlands location.

Transfer made easy

The Lone Star College University Center model is unique, innovative and is one that has been duplicated at many colleges across the country. Transferring to a four-year university partner has never been easier for students. First, LSC University Center partners have operations on site at the Lone Star College University Centers, which makes for a smoother transition process. Also, specific transfer programs – like the 2+2 program – allow students to take their first two years of classes at Lone Star College and then the second two years of upper-level courses at one of the university partners, without having to reapply.

Joint Admission

Students are also able to better maximize the number of courses completed and that can be applied toward their bachelor's degrees by joint admission, which allows students to co-enroll at a partner university while attending LSC. Benefits include a simplified application process, discounted or no application fees, and complete access to the facilities and resources of both institutions. Learn more at LoneStar.edu/joint-admissions.

Reverse Transfer

Lone Star College also has reverse transfer programs with its University Center partner universities, and other colleges in Texas, which establish policies and procedures for credits earned at universities to be transferred back to LSC and applied toward associate degrees. Students wishing to obtain an associate degree while attending a partner university are able to transfer university credit toward the associate degree. For more information, visit LoneStar.edu/university-center.
