

AIR Dissertation Data Request Form

Please fill out this form and email it to SO-AIR@lonestar.edu along with your IRB approval and data protocol.

Please note that typical turnaround time for completion of dissertation data requests is 2 to 4 weeks depending on the type and amount of data being requested.

Dissertation data will be provided in a raw Excel format with no additional statistical analysis. AIR recommends that the requestor allow sufficient time to analyze and format the delivered data themselves as AIR is not able to provide that service for dissertation requests.

Contact information of students with FERPA limitations will not be included in requested data.

While every effort will be made to accommodate data requests, certain variables may not be available from Lone Star College data sources. Upon approval, the analyst assigned will work with the requestor to determine what data points are available.

- *What is your research question?*
- *What data do you need to support your research?*
- *How do you plan to utilize the data to complete your research?*
- *When is your dissertation due?*
- *How do you plan to share your results with Lone Star College and AIR?*
