What is this region?

Tunica Interna (intima)
Which pulse point is this?

Posterior tibial artery
Which pulse point is this?

Common Carotid artery
What is this region?

Tunica Externa
[adventitia]
What is this called?
Showing atrial depolarization.

P wave
Which pulse point is this? Radial artery
What is this region?

Tunica Media

Smooth muscle layer
Which pulse point is this?

Femoral artery
Which pulse point is this?

Dorsalis pedis artery
What is this region?

Tunica Interna (intima)
What is whole thing?

Artery
Which pulse point is this?

Popliteal artery
What is whole thing? Vein
What is this called? Showing ventricular repolarization.
What is this region?

**Tunica Intima (interna)**
Which pulse point is this?

Common Carotid artery
Which pulse point is this?

Popliteal artery
What is whole thing? 

Artery
Which pulse point is this?

Radial artery
Which pulse point is this?

Brachial artery
What is this called? Showing ventricular depolarization.
What is this region?

Tunica media
Which pulse point is this?

Posterior tibial artery
Which pulse point is this?

Brachial artery
What is this region?

**Tunica Media**
(Smooth Muscle layer)
Which pulse point is this?

Femoral artery
What is this? Vein
What does this machine produce?

Electrocardiogram (ECG) (machine is an electrocardiograph)
What are these?

Vein
Which pulse point is this?

Dorsalis pedis artery
What is this region?

**Tunica Externa**

**[adventitia]**
