Name this muscle.

Orbicularis oris
What is the name of these muscles?

Zygomaticus
What is the name of 16?

Scalenes
Name muscle #20.

Frontalis
What is the name of this muscle?

Temporales
What is the name of this muscle?

Biceps brachii
What is the name of this muscle?

brachialis
What is the name of muscle #15?

Sternocleido- mastoid
What is the name of muscle #6? Triceps brachii
What is the name of muscle 17?

Serratus anterior
What is the name of this muscle?

Pectoralis major
What is the action of the triceps brachii?

Extension of forearm
What is the action of this muscle?

Closes mouth
What is the name of muscle #5?

Biceps brachii
What is the name of this muscle?

Rectus abdominis
What is the action of the trapezius?

Rotation of scapula
What is the name of this muscle?

Brachioradialis
What is the action of this muscle?

Extension of forearm
What is the name of these muscles?

Deltoids
What is the name of this muscle?

Masseter
What is the action of this muscle?

Closes eye
What is the name of this muscle?

Masseter
What is the action of this muscle?

Rotates scapula
What is the action of the biceps brachii?

Flexion of forearm
What is the action of the deltid?

Abduction of arm
What is the action of the rectus abdominis?

Compress Abdominal region
What is the name of these muscles?

Latissimus dorsi
What is the name of this muscle?

Trapezius
What is the action of this muscle?

Flexion of forearm
What is the name of this muscle?

**Sternocleido-mastoid**
What is the name of this connective tissue?

Linea alba
What is the name of this muscle?

Triceps brachii
What is the name of this muscle?

diaphragm
What is the action of these muscles?

Abducts arm
What is the name of this muscle? Serratus anterior
Name muscle #19.

Orbicularis oculi
What is the name of this muscle?

Temporalsis
What is the action of this muscle?

Elevates mandible
Which muscle closes the mouth?

Orbicularis oris
What is the name of this muscle?

Temporalis
Which muscle closes the eye?

Orbicularis oculi
What is the name of this muscle?

Serratus anterior
Name this muscle.

Frontalis
Name this muscle.

Buccinator
Which muscle elevates the mandible?

m Masseter
Name this muscle.

Orbicularis oculi
What is the name of this muscle group?

Scalenes
Name this muscle.

Occipitalis
What is the name of this muscle?

**Sternocleido-mastoid**
What is the name of these muscles?

Zygomaticus
