What is the name of this muscle?

Gracilis
What is the name of this muscle? 

semimembranosus

Posterior view
What is the anatomical name of the shoulder joint?

Glenohumeral joint
What is the name of this muscle?

Sartorius

Lateral view
What is the name of this muscle?

Adductor longus
What is the anatomical name of the joint of the jaw?

Temporomandibular joint
What is the name of muscle 10?

Sartorius
What is the name of this muscle?

Vastus lateralis

anterior view- Left
What is the name of this muscle?

Gastrocnemius

Lateral view
What is the name of this muscle?

Vastus medialis
What muscles make up the quadriceps group?

Rectus femoris
Vastus lateralis
Vastus medialis
Vastus intermedius
What is the name of muscle 14?

Adductor magnus
The quadriceps group does what action...?

Extends leg
What is the name of this muscle? Gastrocnemius
What is the name of muscle 11a?

Rectus femoris
The adductor group does what action...?

**Adducts the leg**
What is the name of this muscle?

Adductor magnus
What is the name of muscle 11c?

Vastus lateralis
What is the name of this muscle?

Gracilis

Medial view
What is the name of this muscle?

Vastus lateralis
What is the name of muscle deep to muscle 11a?

Vastus intermedius
What is the anatomical name of the joint between the 2 hip bones and the sacrum is...?

**sacroiliac joint**
What is the name of 24c?

Calcaneal (Achilles) tendon
What is the name of this muscle?

sartorius
What is the name of this muscle?

Gluteus maximus
What is the name of the knee joint?

Tibiofemoral joint
What is the name of this muscle?

Biceps femoris

Posterior view
The fibrocartilage disk between the anterior regions of the L & R coxal bones is the...?

Pubic symphysis
What is the name of muscle 11b?

Vastus medialis
What is the name of this muscle?

Gracilis
What is the name of this muscle?

Adductor longus

Medial view
What is the name of this muscle? Semi-membranosus
What is the name of muscle 13?

Adductor longus
What is the name of muscle 3?

Gluteus maximus
The hamstring group does what action...?

Flexes

Leg/knee
What is the name of this muscle?

Semitendinosus

Posterior view
What is the name of this muscle?

Rectus femoris
What is this?

Quadriceps tendon
What is the name of this muscle?

Vastus intermedius

anterior view - Left
What is the name of this muscle?

Semi-tendinosus
What muscles make up the adductor group?

Adductor longus
Adductor magnus
Gracilis
Gluteus maximus does what action...?

Extends thigh
What is the name of muscle 17?

Semi-membranosus
What is the name of muscle 16?

Semi-Tendinosus
What is the name of muscle 24 a&b?

Gastrocnemius
What is the name of this muscle?

Biceps femoris
What is the name of this muscle?

Gluteus maximus
What is the name of muscle 18?

Biceps femoris
What is the name of this structure?

Calcaneal (Achilles) tendon

Lateral view
What muscles make up the hamstring group?

Biceps femoris
Semitendinosus
Semimembranosus
What is the name of this muscle?

Adductor magnus

Medial view
What is the name of this muscle?

Rectus femoris

anterior view- Left
