Tracking Student Data

Common Element Used in Tracking Student Data

Bundle 36. A new field has been added to the Student Advisor page.

**Tran Level** (transcript level)

Select the transcript level on which you want the given data to print. Values for this field are delivered with your system as translate values. You can modify these values. The delivered values are *Degr Prog* (degree progress), *Not Print*, *Official*, *Stdnt Life* (student life), and *Unofficial*.

The Acad Standing/Honors Awards (academic standing/honors awards) COBOL SQL process (SRPCEASD) evaluates students who are active in the academic institution, academic career, term, and academic program that you select. If students meet the parameters of the academic standing rule or honor award rule, the process updates these students' academic standing records or honors and awards records according to the rule. The process does not update students' academic standing for grades that do not count towards GPA, such as pass/no pass grades.

- **Institution**: Select the academic institution that you want the system to use in the Academic Standing process.
- **Career**: Select the academic career that you want the system to use in the Academic Standing process.
- **Term**: Select the term that you want the system to use in the Academic Standing process.
- **Acad Prog (academic program)**: Select the academic program that you want the system to use in the Academic Standing process.
- **Calculate Academic Standing**: Select to calculate academic standing.
Calculate Honors & Awards

Select to calculate honors and awards. You can select both check boxes at the same time.

Date

Enter the date that you want the system to use in the Academic Standing process. The Academic Standing process displays the date that you enter here in the Date Received field on the Academic Standing page.

Related Links

Tracking Honors and Awards

Tracking Academic Standing for Individual Students

Access the Academic Standing page (Records and Enrollment, Student Term Information, Term History, Academic Standing).

Image: Academic Standing page

This example illustrates the fields and controls on the Academic Standing page. You can find definitions for the fields and controls later on this page.

Effective Sequence

When manually entering academic standing, the default for the first academic standing action within a student's academic career and term is 0.

If multiple academic standing actions exist within the same academic career and term, you must override the default value by manually incrementing the effective sequence for each additional academic standing action entered for the same effective date.

When the Academic Standing process populates this field, it enters effective sequences starting at ten and increments them
by ten (such as 10, 20, and 30) when the effective date is the
same as an existing row.

**Manual Override**

Select to indicate that you entered the information on this page
manually.

**Note:** When you run the Academic Standing process, the system
does not calculate academic standing for any records in which
this check box is selected.

**Academic Standing Action**

Select an academic standing action.

**Academic Program**

Select the academic program of the student. The system prompts
you for student's record.

**Formal Description, Internal
Description, and Academic Standing Status**

The system displays these values according to corresponding
values on the Academic Standing Table page.

**Tracking Special Grade Point Averages**

This section provides an overview of how to assign special grade point averages and discusses how to maintain a student's special grade point averages.

**Related Links**

Setting Up Special Grade Point Averages

**Understanding How to Assign Special Grade Point Averages**

You can assign special grade point averages to students in three ways:

- If you have calculated students' grade point averages through the PeopleSoft Academic Advisement report process using the analysis database report option, your institution can design a process that populates the Student Special GPA page with the results of the calculation, storing them for future analysis.
• You can create and define your own calculation process through the process scheduler.

• You can directly input the special grade point average onto the Student Special GPA page, then use these averages for other applications within PeopleSoft Campus Solutions.

</tbody>
</table>

Maintaining a Student's Special Grade Point Averages

Access the Student Special GPA page (Records and Enrollment, Student Term Information, Term History, Student Special GPA).

**Image: Student Special GPA page**

This example illustrates the fields and controls on the Student Special GPA page. You can find definitions for the fields and controls later on this page.

GPA Type (grade point average type) Select the grade point average type for the grade point average that you want to enter.
| **Sequence** | The sequence number default is 1. The system increases the number sequentially by one as you add new rows. The system evaluates special grade point average numbers in sequence. |
| **GPA (grade point average)** | The default grade point average is 0.000. Enter the student's special grade point average. No programming is tied to this field in the delivered application. Any reporting you choose to perform based on the value entered here must be programmed by your institution. |
| **Entered Online** | Select to distinguish this special grade point average from those populated by a configured background process. This flag has no programming tied to it, but you can use it for reporting purposes. |
| **Academic Program** | (Optional) Select the student's academic program for which you are creating the special grade point average. The list box displays the student's active academic programs. |
| **Academic Plan** | (Optional) Select the student's academic plan for which you are creating the special grade point average. The list box displays the student's active academic plans. |
| **Academic Sub-Plan** | (Optional) Select the student's academic subplan for which you are creating the special grade point average. The list box displays the student's active academic subplans. |

---

### Tracking Milestones

Milestones are non-course-related events that a student must fulfill for a degree. They include things such as language requirements, qualifying and oral examinations, thesis, and dissertation. Use the Student Milestones component to assign milestones and advisors to individual students, as well as to record completions of milestones and attempts to fulfill them. Use the Process Milestones component to assign or update milestones for multiple students.

This section discusses how to:

- Assign and update milestones for a student.
- Create milestones from templates.
- Assign and updates milestones for multiple students.

<td>Create milestones from templates by copying milestone information from the milestone template to the student's transcript.</td>
</tr>
</tbody>
</table>
Assigning and Updating Milestones for a Student

Access the Student Milestones page (Records and Enrollment, Enroll Students, Student Milestones, Student Milestones).

Image: Student Milestones page (1 of 2)

This example illustrates the fields and controls on the Student Milestones page (1 of 2). You can find definitions for the fields and controls later on this page.

Milestone Copy

Click to copy milestone information from the milestone template to the student's record.
See Setting Up Milestones.

**Milestone Detail**

**Milestone Nbr** (milestone number) The milestone number default is 10. As you insert rows, the system increments this number sequentially. The milestone number is used for sequencing.

**Milestone Level** Select the milestone level. Some milestones, such as Comprehensive Exams, can have multiple levels. You can override this value.

**Milestone Complete** The system displays the milestone complete status according to the values entered in the Attempts grid.

**Academic Plan** Select the academic plan to which the milestone is attached. The system prompts you from the student's academic record.

**Milestone Title** Enter a title for the milestone. You can print the title on the student's transcript.

**Manage Milestone Documents** Attach documents related to the milestone.

**Hide Comment on Stdnt Self-Svc** If you select this check box, comments do not appear on the Student Milestone Details page in Student Self Service.

**Term Required** and **Term Anticipated** Select the term by which the milestone must be completed or by which you anticipate the student will complete the milestone. Depending on the value that is entered in the Calculate Required Date and Calculate Anticipated Date fields on the Milestone Table page – for example, Expected Grad Term Start Date, a value may appear in the Term Required and Term Anticipated fields by default. You can override the value.

**Date Required** and **Anticipated Date** If you select a term, the system populates this date based on the term Ending Date value on the Term Table page. Alternatively, the date appears based on the Milestone Table setup as explained previously. You can override the date.

**Print Milestone Detail** Indicates when the milestone will print on the transcript. The system transfers this value from the Milestone Template page. You can override this value. Values for this field are delivered with your system as translate values. The delivered values are Always, Never, and Satisfied.

**Advised by Committee** Select to assign an advisory committee to the student. When you select this check box the Committee field appears.

**Advisors**

**Advisor/Evaluator** If you do not select the Advised by Committee check box, select individual advisors for the student. The system prompts you
with advisors that are within the student's academic career and academic program.

**Attempts: Grade Information**

- **Attempts Allowed**: The system displays the attempts allowed according to the values entered on the Milestone Template page. You can override this value.

- **Attempt Nbr (attempt number)**: Enter the number of the student's attempt at this milestone.

- **Grading Scheme and Grading Basis**: The system populates the grading scheme and grading basis from the Milestone Template page. You can override these values.

- **Grade Input**: Enter a grade (if required by the grading scheme and grading basis).

- **Milestone Complete**: Select the status of the milestone. Values for this field are delivered with your system as translate values. You can modify these values. The delivered values are *Completed, In Progress, and Not Completed.*

- **How Attempted**: Select how the milestone was attempted. Values for this field are delivered with your system as translate values. You can modify these values. The delivered values are *Attended Seminar, Exam Taken, Filed Petition, Native Speaker,* and *Submitted Work.*

- **Date Attempted**: Enter the date that the student attempted the milestone.

**Attempts: Enrollment Details**

This grid displays the class information if the milestone is assigned to the student when the student enrolls in a course.

See [Linking Milestones to Course Data](#).

<tr>
<td><strong>Process Monitor</strong></td>
</tr>
</tbody>
</table>

**Population Selection**

- **Selection Tool:** P3 Query
- **Query Name:** SSR_MLISTN_PROGRAM

**Student Select List**

- **Use Student Select**
This example illustrates the fields and controls on the Process Milestones page (2 of 2). You can find definitions for the fields and controls later on this page.

**Process Action**
Select a process action: *Delete, Insert Milestones, Insert/Update Milestones,* or *Update Milestones.*

You cannot delete milestones which have been completed.

**Process Duplicate Milestones**
Select this check box to indicate that if duplicate milestones are found they should be inserted/updated.

**Population Selection**
The Population Selection group box is a standard group box that appears on run control pages when the Population Selection process is available or required for the transaction. Selection tools are available based on the selection tools that your institution selected in the setup of the Population Selection process for the application process and on your user security. Fields in the group box appear based on the selection tool that you select. The fields behave the same way from within the group box on all run control pages and application processes. If your institution uses a specific delivered selection tool to identify IDs for a specific transaction, you must use it.

See "Understanding the Population Selection Group Box (PeopleSoft Campus Solutions 9.0: Campus Community)"
See "Using the Population Selection Process (PeopleSoft Campus Solutions 9.0: Campus Community)"

**Selection Tool**
Select *External File* or *PS Query*.

**Query Name**
These queries are delivered:

- SSR_MLSTN_PROGPLAN
- SSR_MLSTN_PROGRAM

If you create your own query, you must use the following bind record: SSR_MLSTN_BND - Pop Select Mlstn Report Bind.

**Student Select List**
Select the Use Student Select check box to select individual EmplIDs to include in the Process Milestones process.

**Milestone Detail**
The values in the Calculate Required Date and Calculate Anticipated Date fields appear by default from the setup on the Milestone Table page. You can change these values.

For information about other fields on the page, refer to the documentation in the earlier section: Assigning and Updating Milestones for a Student.

### Activity

Select an extracurricular activity.

### Start Date

The default for the start date is your system date.

### End Date

Enter the date that the activity ended.

### Academic Institution and Academic Career

The system populates the academic institution and academic career of the student, unless the student has more than one academic career or institution on their record. In that case, you can select the appropriate academic institution and academic career.

### Term

Select the academic term in which the activity took place.

### Activity Type

The system populates the activity type if it was defined on the Extracurricular Activity Table page. You can change this value.

### Office Held

Select the office that the person held (if applicable). Values for this field are delivered with your system as translate values. You
can modify these values. The delivered values are Captain, EIC, President, Treasurer, and Vice Pres (vice president).

**Time Unit 1 and Time Unit 2**

Enter the amount of time the student spent participating in this activity. Time units can represent hours per week, hours per month, and so on. Select the time unit qualifier in the field next to this one. Values for this field are delivered with your system as translate values. You can modify these values.

**Additional Info (additional information)**
Enter any comments or notes about the student's participation in this extracurricular activity.

---

</tr>
</tbody>
</table>

Tracking Student Attributes

Access the Student Attributes page (Records and Enrollment, Career and Program Information, Student Program/Plan, Student Attributes).

Image: Student Attributes page

This example illustrates the fields and controls on the Student Attributes page. You can find definitions for the fields and controls later on this page.

Student Attribute

Select the student attribute that you want to attach to the student for cohort tracking and reporting purposes.

The Consolidate Academic Statistics process compares this student attribute to the value existing in the Student Attribute for Cohort field on the Academic Institution 3 page. If the process finds a match, it writes this student attribute to the student's academic statistics record.

Student Attribute Value

Select the student attribute value associated with the student attribute.

Primacy

Enter the primacy number for this student attribute. If you enter the same student attribute more than once, the Consolidate Academic Statistics process writes the one with the lowest
primacy number to the student's consolidated statistics record. This primacy number has no relation to financial aid primacy.

- Understanding Consolidate Academic Statistics Process Calculations
- Performing Academic Statistics Consolidation

Using Student Records Service Impacts

Use service indicators to provide or limit access to services in your system. Service indicators can be holds to prevent an individual from receiving certain services or positive indicators to designate special services to be provided. Service indicators consist of one or more service impact values identifying the types of specific services that are restricted or provided.

Student Records enables you to attach specific service impacts to negative service indicators, which, when assigned to a student, restricts the student from receiving certain services. These specific service impacts are the following:

- **CENR**: Restricts all enrollment activity (such as adds, drops, swaps, or wait lists) for a student with existing enrollment for the current term.
- **IENR**: Prevents a student from initially enrolling into a class but permits the student to add or drop classes if they already have enrollment activity for the current term.
- **AENR**: Prevents a student from initially enrolling into a class and prevents the student from adding a class, but permits the student to drop classes if they have already have enrollment activity for the current term.
- **ENVER**: Prevents the enrollment verification process from printing a student's enrollment verification request.
- **GRADE**: Restricts a student's access to self-service View My Grades. Also prevents the student grade report process from printing the student's grade report.
- **DENR**: Prevents a student from dropping or swapping a class but permits the student to add classes or make changes to existing enrollments.
- **WENR**: Prevents all enrollment activity other than drops that result from the Student Records withdrawal process or the Student Financials cancellation process.

Assigning Academic Advisors to Students

This section discusses how to assign academic advisors to students.

When the message catalog message set number 14600, message numbers 877 & 878 message severity is set to Warning, the user is able to assign academic advisors or committees to a student whose academic program and plan is inactive for the defined student advisor effective date. To prevent the assigning of an academic advisor or committee to a student whose academic program and plan is inactive, for the defined effective date, the message severity should be set to Error. You can also change the message text and explanation. For example, add the word Error in front of the message text.

The academic program plan look up for the Student Advisor displays the maximum effective dated value corresponding to the defined effective date on the Student Advisor page. When you enter or select an inactive maximum effective dated program or plan value, you receive a warning message, but you can successfully save the transaction. The academic program status appears on the Student Advisor page — for example, LOA.

Access the Look Up Academic Program page from the Academic Program field on the Student Advisor page.

**Image: Look Up Academic program**

This example illustrates the fields and controls on the Look Up Academic program. You can find definitions for the fields and controls later on this page.

<table>
<thead>
<tr>
<th>Look Up Academic Program</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>EmpID:</strong> SR12219</td>
</tr>
<tr>
<td><strong>Academic Institution:</strong> PSUNV</td>
</tr>
<tr>
<td><strong>Academic Career:</strong> Undergraduate</td>
</tr>
<tr>
<td><strong>Academic Program:</strong> begins with</td>
</tr>
</tbody>
</table>

**Search Results**

When the message catalog severity is set to Warning, the user is able to assign an advisor to a student in an inactive program. For example, in the search results of the Look Up Academic Program, the FAU program is listed as Leave of Absence for the January 15, 2001 effective date.
Access the Look Up Academic Plan page from the Academic Plan field on the Student Advisor page.

**Image: Look Up Academic Plan page**

This example illustrates the fields and controls on the Look Up Academic Plan page. You can find definitions for the fields and controls later on this page.

### Look Up Academic Plan

- **EmplID:** SR12219
- **Academic Institution:** PSUNV
- **Academic Career:** Undergraduate
- **Academic Program:** FAU
- **Academic Plan:**
  - **Description:** begins with

In the search results of the Look Up Academic Program or Academic Plan, the program status appears. The results also display the maximum effective dated value corresponding to the defined effective date on the Student Advisor page. If the max effective dated program or plan value or status has changed, historical academic advisement rows will not be affected unless the user makes a change to the historical record. Users will not be able to assign and save program or plan values that are not the max effective dated value for the student advisor effective date. For example, if Mary St. James had an academic plan of ETHST-BA in January 1, 2001. Effective January 1, 2006, she had a change to the Honors plan. On the Student Advisor page, with an effective date of April 1, 2006, the user will receive an invalid value message upon entering ETHST-BA as the student's plan.

### Page Used to Assign Academic Advisors to Students

### Assigning Advisors to Students

Access the Student Advisor page (Records and Enrollment, Student Background Information, Student Advisor, Student Advisor).

Bundle 36. New field: Advisor Percentage
**Academic Institution**
Select the academic institution for which you want to assign the student an academic advisor.

**Effective Date**
Enter the date that the student's advisor or advisory committee becomes effective for the student.

**Advisor Role**
Select the role that the advisor serves for the student. Values for this field are delivered with your system as translate values. You can modify these values.

**Advisor Number**
The system, by default, sets the number of the advisor to 1, and it increases the number by one as you add new advisors or committees.

**Academic Career**
Select the student's academic career for which you want to assign the advisor. The system prompts you with options based on the student's career term record.

**Academic Program**
Select the student's program for which you want to assign the advisor. The system prompts you with options based on the student's program record.

**Academic Plan**
Select the student's plan for which you want to assign the advisor. The system prompts you with options based on the student's program record.

**Academic Advisor**
If an individual advises a student, select that individual advisor. The system prompts you with advisors that are within the student's academic career and academic program. If this field is unavailable for entry, you must first clear the Advised by Committee check box.

**Advisor Percentage**
This field is enabled only when the Advised by Committee check box is not selected.

This field allows a numeric value to one decimal place.

**Committee**
If a committee rather than an individual advises a student, select the committee. If this field is unavailable for entry, you must first select the Advised by Committee check box.

**Advised by Committee**
If a committee rather than an individual advises a student, select this check box. The Committee field becomes available for entry, and the Academic Advisor field becomes unavailable for entry.

**Must Approve Enrollment**
Select to indicate that the advisor must approve a student's enrollment into classes. This check box is for information purposes only. No coding is behind it.

**Must Approve Graduation**
Select to indicate that the advisor or committee must make a degree check before your institution can complete the
student's graduation process. The Graduation Approved check box becomes available for entry. Both check boxes are for information purposes only. No coding is behind them.

**Graduation Approved**

Select to indicate that the advisor or committee has made a degree check and your institution can now complete the student's graduation process. This check box is available for entry only when you select the Must Approve Graduation check box.

---

**Viewing Advisors Through Self Service**

If your institution has licensed PeopleSoft Campus Self Service, your students can view their advisors directly over the web.

Viewing Comments, Checklists, and Communications

You can create comments, checklists, and communications for students. This section discusses comments, checklists, and communications only briefly here. However, this functionality is discussed more fully in the Campus Community documentation.

- Use the Comment Summary page to view comments created for a student.
- Use the Communication Summary page to view a communication summary for a student.
- Use the Checklist Summary page to view checklist summary information for a student.
- Use the Operator 3C Groups Summary page to view and modify user inquiry groups.

Viewing Student Photos

This section lists the page used to view student photos.
