The Management Fast Track program prepares entry-level supervisors to succeed as an effective organization leader. This six-week program supports the participant’s need to acquire skills that will allow them to effectively support their organization’s goals. Lone Star College provides an optimal learning environment for participants to become professionals who are capable of working in teams and communicating ideas effectively.

Our program will introduce the fundamentals of supervision and leadership. The program includes introductory supervision skills such as communications, team building, performance review, and an overview of common legal issues. Participants will also learn effective meeting leadership skills and introduce supervisors to basic human resource functions.
