

Biology Refresher Information

If any of your required BIOL courses are older than 5 years, the following are your options to refresh them:

- BIOL 2401**
- 1) take the credit class again (BIOL 2401) and make a minimum grade of C
 - 2) take BIOL 2404 and make a minimum grade of C to refresh both BIOL 2401 & 2402 (if both were taken more than 5 years ago)*
 - 3) take the approved Continuing Education course at one of the Lone Star College System campuses for A & P I* (CSCIT 2100701 or SCITC 2100701)
- BIOL 2402**
- 1) take the credit class again (BIOL 2402) and make a minimum grade of C
 - 2) take BIOL 2404 and make a minimum grade of C to refresh both BIOL 2401 & 2402 (if both were taken more than 5 years ago) *
 - 3) take the approved Continuing Education course at one of the Lone Star College System campuses for A & P II* (CSCIT 2100801 or SCITC 2100801)
- BIOL 2420**
- 1) take the credit class again (BIOL 2420) and make a minimum grade of C
 - 2) take the approved Continuing Education course at one of the Lone Star College System campuses for Microbiology* (CSCIT 2101301 or SCITC 2101301)

The grades earned from the older credit biology courses will be used for grade point calculation where applicable.

*Students who use this option should verify that the credit class they took previously is plugging into their Lone Star College System nursing degree plan before signing up for this refresher course.
