## WHAT IS OT VIDEO OBSERVATIONS

Observation points (2 points maximum---.40 points for each correct answer) can be earned by watching the video and **correctly** answering the questions below. The questions are very specific to the video therefore the answers must be exactly what is stated in the video. Here is the link to the video:

<https://www.aota.org/About-Occupational-Therapy/Patients-Clients/video-what-ot-can-do-occupational-therapy.aspx>

After you watch the video, answer the following questions on this document:

1. There were 2 OT clients in the video whose lower leg was amputated. What event were they participating in that caused their injuries?

\_\_\_\_\_.

2. Jan Davis, OTR stated that OT practitioners have to look at three things that make up the whole person. The emotional and physical parts of the person are two of those three things. What is the third part?

\_\_\_\_\_

3. What did the OT practitioner working with the child state is one of the most important occupations for a child? \_\_\_\_\_

4. One of the OT practitioners worked with a patient who had a traumatic brain injury. She stated that OT practitioners can work with objects familiar to patients to help them during therapy. Her patient was a race car driver. What object related to driving did she use that was familiar to her patient?

\_\_\_\_\_

5. The video covered how occupational therapy helps clients in 7 distinct categories. Six of them are: Changing Lives, Regaining Independence After Injury, Learning Childhood Skills, Aging at Home Safely, Recovering from Traumatic Brain Injury, and Functioning in the Community. What is the sixth category ?

---
