

Tutor Training & Certification

To insure the quality of our tutoring services, we require our peer and professional tutors to undergo tutor training and to obtain CRLA certification.

- **The CRLA Tutor Certification Program was established in 1989 to set a standard of skills and training for college tutors and to provide recognition for tutoring programs which are committed to excellence in tutoring practices.**
- **The CRLA program also provides individual tutors with certification recognized by colleges and universities throughout the USA.**
- **CRLA Tutor Training Certification is endorsed by the National Tutoring Association, the Association for the Tutoring Professional, the National Association for Developmental Education, and the American Council of Developmental Education Associations.**
