LSC Employees:

Pending more guidance and clarification from the Center for Disease Control (CDC), we will continue with our current policies requiring masks, temperature checks, contact tracing and social distancing.

The timing on this took us by surprise and we need to discuss how to transition out of our current practices into a “return to building” mode.

If you’re not aware, we recently have had a several employees and students diagnosed with COVID. My concern is that with a number of employees choosing not to be vaccinated, and the large numbers of students preparing to enter LSC this summer who have not been vaccinated, we run the risk of exposing others to COVID.

Again, we are strongly encouraging our employees and students to have the vaccination. COVID continues to be a real threat and we want to minimize the threat to employees and students.

We will provide updates in the next few days but we are requesting that you continue the safety practices we have in place for the time being.

More information will be forthcoming.
