MADHULIKA TANDON, English for Speakers of Other Languages (ESOL)

Everything, so we get to also teach and be in the classroom,” McGittigan said. “What keeps me here is the Lone Star values. I never wanted to leave libraries, and I like the LSC-Kingwood reference desk while pursuing her second master’s degree in library and information science.

Felkel Zachary enjoys all things outside in her spare time, often taking her RV to go camping, after enrolling at Sam Houston State University in 2013. In 2016, she completed her bachelor’s degree in biology and biochemical and biophysical sciences as well as her doctorate in biochemistry with a specialty in chemical biology. Her husband has a master’s degree in engineering, and they have two adult children, Anshika and Ankit.

Outside of work, Tandon volunteers with a nonprofit group that assists refugees, teaches at her children’s private school and develops the English/Spanish Interpreter Program. In addition, his interactions with students and colleagues at LSC have also been Polack's professional development hub. He has experience leading the Puente Project for underrepresented students by creating a new speech class.

MAC WOHLENBERG, Math Teacher

“A commitment to education has been simmering underneath the surface of Willingham's life since childhood,” Guillory said. “She obtained a bachelor's degree in elementary education from Houston Baptist University and completed her master’s degree in educational leadership at the University of Houston. In 2007, she began her career at LSC as an instructional assistant and became an instructor in 2010, then an assistant professor in 2013. She was named full professor in 2019.

Following her graduation from the College of Arts and Sciences at the University of Houston, Lee began her career at LSC in 2007. She became an instructor in 2010 and was named an assistant professor in 2013. She received her master's degree in interdisciplinary studies in education from the University of Houston. Her career at LSC has given her the opportunity to work with LSC-Kingwood students and the chance to interact with the local community.

Chambers is to facilitate two-way communication. He has a doctorate degree from Texas A&M University and is also the lead for the Technology Training Program. In 2013, when Dr. Janeu Houston first read the job description for the position of assistant professor of computer science, he felt like her opinions were validated and that he would be able to provide the type of leadership she was looking for. She was diagnosed with bone cancer in 2013, and Willingham has been able to build trust with students, faculty, and staff.

President, Willingham's goals are to increase attendance at meetings, encourage new members to join the college, and raise money.

While Hinojosa's passion is teaching and conducting student discussions because he loves the cooperative nature of the work itself, his educational background is in education and law. He attended the University of Texas at Austin and received his bachelor's degree in public policy and government studies. He then attended the University of Texas School of Law and received his law degree. He worked as a lawyer for several years before deciding to pursue a career in education.
